# *History*

THE village of Middlebury has long held a pioneer position in the advancement of women's education. Here in 1802 was erected one of the first "Female Academies" in the country. Here in 1807 Emma Hart (Willard) opened her first school for girls and ten years later composed what has been called the Magna Carta for higher education of women in America.

Middlebury College was not founded to give voice to any special religious, social, or political creed. It was indigenous, a product of nineteenth century democracy, financed from the thin purses of local citizens, and expressive of multiform culture brought from southern New England.

A miller, two lawyers, a doctor, and a President of Yale University conceived the first plan for Middlebury College on the night of September 30, 1798. The miller was Gamaliel Painter, whose name the oldest college building in Vermont still bears; the lawyers, Seth Storrs, donor of the campus of the men's college, and Samuel Miller, who entertained the group at this original meeting; the doctor, Darius Matthews, a probate judge as well as physician; and the Yale President, the great Timothy Dwight.

Some thirty log cabins and frame houses, surrounded by wilderness, comprised the settlement at Middlebury in 1798. No road had yet been built to the pioneer village. The State of Vermont as a part of the Union was only seven years old and its Legislature still roved from town to town for its annual meeting. Grist and saw mills, a few shops for mechanics and blacksmiths, a rough inn, and a brewery offered the principal commercial accent to the village. A church had not even been constructed. Still the establishment of a college as well as a grammar school seemed imperative to these immigrants from Connecticut.

President Dwight, in his visit of a single night, helped to outline a plan for procedure, but it took two years to persuade the Legislature that the request for founding a college in this wilderness should be honored. A charter was finally granted on November 1, 1800, and Jeremiah Atwater, a Yale graduate, appointed President; then breaking all precedent for haste, seven men were admitted the following day and Middlebury was under way, lodged in a building just completed for the Addison County Grammar School. President Atwater and one tutor comprised the entire administrative and teaching staff. And under them the first student graduated in August, 1802.

Greek and Latin were the *pièce de resistance* of the curriculum in those early years. Mathematics—ranging from "vulgar arithmetic" to

trigonometry,—history, geography, natural philosophy, astronomy, rhetoric, law, logic, metaphysics, and ethics rounded out a four-year program, with vocational purpose noted in such courses as navigation and surveying. A disciplinary system based on the temper of the law of Moses and the text of Yale College rules and regulations kept a student's nose to the academic grindstone. As occasion for new rules of conduct arose, they were properly phrased, and appropriate fines attached: fifty cents for gambling, intemperance, or dancing; two cents for chapel absence; twelve cents for possessing firearms; for dog-earing a library book one cent; or twenty-five cents for re-lending a library book. Students were their own janitors, laid their own hearth fires, lugged their water from out-door cisterns, often cooked their own meals. Daily chapel prayers before dawn began the day and a daily chapel service at dusk ended it.

Under Jeremiah Atwater, whose fame for scholarship and discipline spread abroad, Middlebury was not slow in growth and that growth continued under his successors, Henry Davis (1809-1817) and Joshua Bates (1818-1839). After an extended debate over whether the future College should be located on Mt. Nebo (Chipman Hill), Aqueduct Hill, near the present Country Club, or on Storrs Hill, the latter was finally chosen and New College, or Painter Hall, was built in 1815 by Middlebury citizens, each contributing his quota of lumber, nails, glass, hardware, and cartage.

The stone chapel was added in 1836, the peak year of enrollment during the century. In those thirty-six years, the College had grown nearly to the size of Harvard and with a comparable reputation. But during that year when success seemed most phenomenal, progress was suddenly stunted by awkward and blundering conflict over religious status. From a local dispute it flared into a County and State-wide controversy. The College came to be known as a stronghold of a new kind of radical evangelism. In three years nearly two-thirds of the students left.

Benjamin Labaree confronted this situation in 1840 and for twenty-six years labored to build up the enrollment and financial standing. He pushed through several successful drives. Starr Hall was built in 1861, and rebuilt after a disastrous fire during the Christmas holidays of 1864. The College was beginning to regain its rank of the '30's when the Civil War thoroughly undid most of his constructive labors.

During the less successful administrations of Harvey D. Kitchel (1866-1873), Calvin D. Hulbert (1875-1880), and Cyrus Hamlin (1880-1885), the registration wavered from the low sixties into the fifties and forties, touching a low of thirty-eight students in 1882. From that date to the present the trend has been upward almost annually.

Ezra Brainerd, who stepped from a professorship of Physics and Applied Mathematics to the presidency in 1885, did much to raise the scholastic standards of the College.

"My ideal of a college," he asserted, "is one that insists on a complete symmetrical knowledge of the fundamental laws of all nature, a compre-

hensive survey of the best in all literature, and a general acquaintance with the great principles that should regulate all human conduct. . . ."

Working on a platform that stressed scholarship he built up Middlebury from a struggling institution of little scholastic stamina and an enrollment of forty-four to an influential College of well over two hundred. Under him the Starr Library (1900) and the Warner Science Hall (1901) were constructed and the building program which he started was continued on a much larger scale by his successor, John M. Thomas (1908-1921).

In spite of repeated earlier appeals, women were not admitted until 1883 after the alumni had petitioned for the change. Eight years later the first dormitory, Battell Hall, was opened. The status of women as part of Middlebury College remained somewhat indefinite until 1902 when a State legislative act made possible the forming of a separate women's college.

Once their relation to Middlebury was clearly established the enrollment increased rapidly. Joseph Battell, the greatest benefactor of the Women's College, secured the present campus north of the men's in 1907. Battell Cottage was opened the following year and Pearsons Hall in 1911. During Dr. Thomas' administration additions on the men's campus, of importance to the women, were also occurring. McCullough Gymnasium was completed in 1910, the Chemistry Building in 1913, and Mead Chapel in 1916.

In 1921 Dr. Thomas turned over to President Paul D. Moody a College of nearly five hundred students, double the number in 1908, as well as a College immeasurably more wealthy in endowment and buildings.

From the day of his inauguration, Dr. Moody stressed Scholarship, not Numbers. The registration has increased appreciably, but it has been strictly limited, keeping a fine balance between the enrollment and equipment, staff, dormitories, and endowment. The Château (1925), the Music Studio (1925), Hospital (1925), two new wings on the Library (1928), and the new dormitory, Forest Hall (1936), are the principal additions in buildings made during this administration.

In 1931 the "Women's College of Middlebury" was officially adopted as the name for the College and plans have been drawn up for an entirely separate women's plant including three recitation halls, a library, three more dormitories, a gymnasium, music and art halls, and a chapel.

# *General Information*

## *Purpose*

HEREDITY and environment inevitably play a large part in giving character to any college. Scholastic traditions built up over a period of 137 years contribute much to the present. Middlebury has always been a liberal arts college, and the Women's College at Middlebury has adapted this traditional thesis to modern education. Its faculty, curriculum, and society are organized to provide students with a comprehensive and balanced knowledge of languages and literature, history and philosophy, social, political, and economic institutions, and the sciences. A three-fold program for each student is stressed: intensive work in one field of planned study, in which a student takes a comprehensive examination during the senior year; a survey of many subjects as they relate to this field of concentration; the study of definitely cultural courses to give breadth and perspective. Middlebury has no vocational or professional schools. The one undergraduate degree is Bachelor of Arts. The Women's College at Middlebury is affiliated with Middlebury College for men, located on an adjacent campus and a number of classes and organizations are coeducational.

The College is non-sectarian, but fosters the tradition of Christian faith and sincere moral purpose established by the founders. Students are required to attend the daily chapel services led by the President and the Sunday vesper services conducted by men of eminence in various denominations and the President.

The limited size of the College is largely responsible for a strong democratic spirit among both faculty and students. Instructors and administrative officers welcome calls from students either at their offices or in their homes. The President cordially invites student consultation on any subject.

## *Location and Campus*

The College is located on a hill overlooking a typical central Vermont village, a wide sweep of the Champlain Valley, the Green Mountains to the east, and the Adirondacks across Lake Champlain to the west. The campus is the largest of any college in the world, with about thirty-five acres for women's buildings and athletic grounds, and a mountain estate of 15,000 acres including some of the highest peaks in the State. The United States Government has taken over the title to an adjacent area formerly owned by the College as part of the Green Mountain National Forest. Both tracts are used by students for outings, winter sports, week-

end trips to lodges. Middlebury is one of the winter sports centers of New England and both men's and women's colleges join in an annual carnival held during February on Chipman Hill. The athletic field is at present in the center of the quadrangle of the campus. Students are permitted to use the Middlebury Country Club Golf Course without charge during the college year.

## *Buildings*

Until the entire construction plan for the campus of the Women's College at Middlebury is completed, most of the recitation and administrative buildings will be used by both the men's and women's Colleges.

Administrative and faculty offices are located on the first floor of Painter Hall and in the Old Chapel. Class rooms for many of the language and social science departments are also in the Old Chapel building. The Departments of Chemistry and Mathematics are in the Chemistry Building and the other science departments in Warner Science Hall. A small Museum of Natural History is also in this building. In the Starr Library are reading, lecture, periodical, reserve, and fine arts rooms. Students have free access to the main stacks which carry about 100,000 volumes. The private library of Dr. Julian W. Abernethy, containing one of the finest collections of American Literature in the country, is in the east wing of the building. There are also rooms for seminars, typewriting, the Sheldon Coin Collection, Middleburiana and local history. The headquarters for the Department of Music are in the Music Building, where private studios for vocal and instrumental practice as well as a hall for Glee Club, Band, and Choir rehearsals are located. Curricular and extra-curricular work connected with play production is carried on in the Playhouse on Weybridge Street. In the McCullough Gymnasium are a basketball court, auditorium, and locker rooms. Classes in Physical Education are held in the Gymnasium and in Hamlin Hall. Recitation rooms of the French Department, the office of the Dean of the French School, and the Library are on the first floor of the Château. Daily assembly and Sunday vespers are held in Mead Memorial Chapel, a colonial white marble structure of the New England meeting-house type.

Eight residence halls and cottages of varying sizes are provided for the use of students and faculty. Those on the campus are: Forest Hall, designed to accommodate 125 women; Pearsons Hall; Battell Cottage; Hillcrest; Hillside Cottage; and the Château, constructed after the Pavillon Henri IV of the palace of Fontainebleau. The Home Management House, on Weybridge Street, known as The Homestead, is a typical New England home, the interior of which has been remodelled so that it admirably meets the needs of Home Economics 35.2. A Co-operative House on South Main Street accommodates eleven women, who under the direction of a member of the Home Economics Department, serve their own meals and care for their own rooms.

In assigning rooms, preference is given to students in College in order of classes. An assignment is made about May 1. Incoming students cannot be assigned to particular rooms before August 15. No room can be assigned for a shorter period than one year. All rooms are subject to the regulations of the College as to student residences, and occupants are liable for any damage to their room or its furniture. The students' rooms in each hall or cottage are single or double and are supplied with necessary furnishings. Application for a room in a college house together with $10 advance payment for room rent should be made to the Dean of Women. No reservations are made without this deposit. This sum will be refunded if the room is not desired, provided notice of withdrawal is given before August 1.

## *Vocational Preparation*

The desirability of carefully mapping out one's life work is impressed upon all students, and college instructors give freely of their time and advice in aiding students to a wise arrangement of their studies. The first object of a college course should be that development of mind and personality which will enable one to lead a life of greater usefulness; but success is more likely to attend the student who, in seeking that development, strives to fit herself for some particular field of service. With this in mind, the College publishes a bulletin, "To College With a Purpose," which indicates desirable high school and college courses for some fifty careers such as: Advertising, Business, Dietetics, Dramatics, Foreign Service, Interior Decoration, Journalism, Library Work, Medicine, Nursing, Philology, Physical Education, Religious Education, Scientific research, Secretarial work, Social Service, Statistical work, and Teaching.

## *Extra-curricular Activities*

The students of the Women's College at Middlebury have been self-governing since January 5, 1912. The object of the Student Union is to control the conduct of the women in all matters of their college life which are not under direct jurisdiction of the Faculty; to further the spirit of unity among them; to coordinate and control the extra-curricular activities of the women students; to encourage high standards of responsibility and co-operation in student self-government; and to maintain the social standards of the College.

All women registered as students in the Women's College at Middlebury become members of this Union upon reading and signing the Constitution and By-Laws. The act of signing these is an agreement to accept the principles, rules, and regulations of the Student Union, thus pledging responsible membership in the community and subordination of personal interests to the general good.

The undergraduate organizations at Middlebury include: Athletic Association, Choir, Choral Society, Debating Club, Der Deutche Verein,

El Club Espanol, English Club, Glee Club, Le Cercle Français, Mortar Board, Mountain Club, Orchestra, Pan-Hellenic Council, Phi Beta Kappa, Spanish Club, Student Union, and *A Tempo* Club.

There are six national sororities: Alpha Xi Delta, Delta Delta Delta, Kappa Kappa Gamma, Phi Mu, Pi Beta Phi, and Sigma Kappa.

Periodicals edited and managed by students include: *Middlebury Campus,* the weekly newspaper; *Saxonian,* quarterly literary magazine; *Kaleidoscope,* College year book, published in May; *Handbook,* annual information booklet for Freshmen.

Opportunities for hearing musicians, lecturers, and entertainers of wide reputation are provided by such organizations as the College Entertainment Committee, the Liberal Club, and the Abernethy Library. Robert Frost, Dorothy Thompson, John Mason Brown, The Westminster Choir, Hart House String Quartet, Felix Salmond, Myra Hess, Kathryn Meisle, Rollo Walter Brown, Bernard DeVoto, Ralph Kirkpatrick, and Blanche Yurka are representative of those who have recently appeared. In addition, there are weekly "Twilight" musicals, Dramatic productions, the annual concerts of the Glee Clubs, Orchestra and Choral Society, and the special seasonal music of the Choir.

## *College Regulations*

The College places in the hands of each student a pamphlet of regulations containing detailed information as to enrollment, attendance, scholarship, examinations, athletics, and student activities. Since the necessarily limited enrollment places upon the College the obligation to select candidates with the utmost care possible, a responsibility is felt for those who are accepted and the gratifying record that Middlebury graduates have made is due, we believe, to this. To safeguard this record of the past, *the College reserves the right to exclude at any time students whose conduct or academic standing it regards as undesirable, and without assigning any further reason therefor; in such cases the fees due or which may have been paid in advance to the College will not be refunded or remitted, in whole or in part, and neither the College nor any of its officers shall be under any liability whatsoever for such exclusion.*

## *Health Measures*

The College aims to investigate and care for the health of each student as far as possible. The Department of Physical Education for women commands the services of a professor and assistants. Prescribed work in physical education and hygiene is required of all Freshmen and Sophomores. Students are encouraged to organize and carry on a great variety of outdoor sports under the general charge of the Director. All cases of illness are reported immediately to the college nurse who co-operates with the local physicians. Porter Hospital is fully equipped for the accommo-

dation of any cases of illness which may arise. The health fee entitles each student to seven days' hospitalization at the minimum rate. Private rooms, special nursing, and physicians' fees are taken care of by the student. The importance to the student of laying a sound physical foundation during the years of her college course cannot be over-estimated. The College reserves the right to ask the withdrawal of any student whose physical condition is not satisfactory.

## *Chapel Services*

Students are required to attend daily chapel assemblies conducted by the President, as well as Sunday Vespers services led by men distinguished in educational and religious fields. Among the list of Vespers speakers are: Henry Hallam Tweedy, Yale Divinity School; James Lukens McConaughy, President, Wesleyan University; J. Edgar Park, President, Wheaton College; Charles R. Brown, Dean Emeritus, Yale Divinity School; Arthur W. Hewitt, Headmaster, Montpelier Seminary; A. G. Butzer, Westminster Church, Buffalo; Lynn Harold Hough, Dean, Drew University; Gaius Glenn Atkins, Auburn Theological Seminary; Bernard Iddings Bell, formerly Warden at St. Stephens College; Robert C. Clothier, President, Rutgers University; Leslie Glenn, Trinity Church, Cambridge; W. M. Lewis, President, Lafayette College; John M. Thomas, former President of Middlebury College.

## *Expenses*

Bills are payable by semesters. All students entering for the first time shall be required to make an initial deposit of $100.00 on their semester bill. Members of the sophomore, junior, and senior classes shall be required to pay all arrears and to make a deposit of at least $50.00 on their new accounts before they will be permitted to enter classes. Bills for the first semester must be settled in full by November 1 or satisfactory arrangements made at the Treasurer's office. For the second semester all students are required to make a minimum deposit of $50.00 before enrolling, and accounts must be settled in full or satisfactory arrangements made by March 1. A certificate of deposit from the Treasurer's office and a class card are required before the student is allowed to attend classes.

The following table includes the principal items:

| | |
|---|---|
| Tuition | $300.00 |
| Room and board | 400.00 |
| Gymnasium and athletic fee | 10.00 |
| *Health fee | 10.00 |
| Publications: | |
| *The Campus* | 2.00 |
| *The Saxonian* | 1.00 |
| *The Kaleidoscope* | 4.00 |
| Student Union fee | 1.50 |
| Lecture fee | 2.00 |

* In addition to minor dispensary service, this covers seven days service at Porter Hospital when necessary at the minimum rate of $3.00 per day.

With the help of the list of fixed charges given above, the individual student should be able to work out an approximate estimate of her expenses for the year. In addition the student should consider travel, textbooks, clothing, sorority dues, and social assessments. Items varying according to class, courses, and society:

| | |
|---|---|
| Special laboratory fees (see course descriptions) | $2.00 to $12.00 |
| Extra course per semester | 30.00 |
| Graduation fee (seniors only) | 11.00 |
| Books and supplies | 20.00 to 50.00 |

Students boarding at the women's dining halls if absent two weeks or longer will be allowed a rebate of $5 a week for each full week's absence.

The College reserves the right to change quoted charges if necessary to meet the actual cost.

Employment by which the student may earn part of her expenses can frequently be obtained about the College or in the village. While the College can promise nothing to untried candidates, it will help in every way possible all who prove themselves capable and willing. Occupations in which students find employment are: waiting on table, washing dishes, and house-duty in the dormitories; waiting on table and light house work in the homes of the village; caring for children in the afternoon or evening; typewriting or clerical work in the college offices; tutoring; acting as monitors; singing in the choir, etc. Applications for work should be made at the office of the Dean of Women.

The College makes no refund of tuition for absence, withdrawals or dismissal from College, except for continued illness. No student will be permitted to take her examinations, given her credits, or considered honorably dismissed until all her accounts have been paid in full.

The Registrar will issue a transcript of record on request to students wishing to transfer or in any other way needing a statement of their credits. One copy of the college record is furnished free. A fee of one dollar will be charged for a duplicate of the transcript. In the case of students who have received scholarship aid or who are financially indebted to the College, however, no transcript will be issued until satisfactory arrangements have been made at the Treasurer's office.

## *Language Schools*

Middlebury has acquired distinction as a pioneer in establishing the segregated one-language summer schools, first of which was the German School founded in 1915. This had a flourishing existence for three years, but was discontinued in 1918 when the teaching of German in high schools was given up, due to the World War. Its immediate success was attested by the opening of the French Summer School in 1916, of the Spanish School the following year, and the spread of segregated language instruction to other institutions. In response to a wide demand the German School was revived in 1931 at Bristol. An Italian School was opened in 1932. Since the Deans of these schools are permanently connected with the College it

is possible for undergraduates during the winter session to benefit by the advantages introduced into language teaching. Bread Loaf Inn, twelve miles east of the College, is the home of the Bread Loaf School of English, where a six weeks session is held each summer for graduate students, followed by the Writers' Conference of two weeks.

## *Government and Resources*

The government of the College is by a board of Trustees whose corporate title is "The President and Fellows of Middlebury College." The corporation is self-perpetuating and the charter of the College contains no restrictions as to elections. The College owns buildings, equipment and grounds valued at $2,110,000. The permanent endowment amounts to $4,300,000. An appropriation of $7,200 is received from the State of Vermont, for scholarships. The expenditures for the year 1935-36 were approximately $335,733.00. The College has never impaired its endowments and is not in debt. An Advisory Committee elected by the alumnæ of the College co-operates with the trustees in making suggestions concerning the operation of the Women's College.

## *Publications*

The following bulletins are issued by the Middlebury College Press:

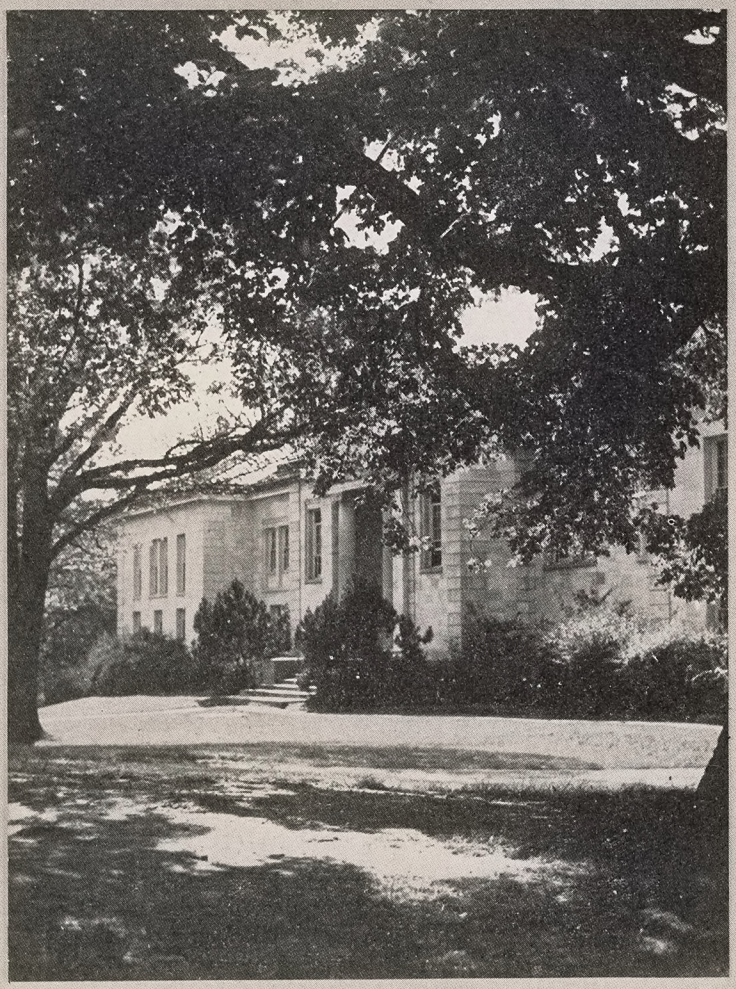
The College Directory, containing the address list of students, faculty, officers, and secretaries; The Romance Languages; The German School; Scuola Italiana; The Bread Loaf School of English; Bread Loaf Writers' Conference; The College Sketch Book, volume of college illustrations; The Environs of Middlebury; Guide to the Vicinity of Bread Loaf and Middlebury; and the booklet, "To College With a Purpose," which outlines desirable preparatory school and college courses for various careers.

A history of Middlebury College, "Father Went to College" ($3.00), published in November, 1936, may be secured from the College Press or the publishers, Wilson-Erickson, Inc., 33 West Forty-second Street, New York City.

## *Correspondence*

Inquiries regarding admission of women should be addressed to Miss Frances H. C. Warner, Director of Admissions for Women; regarding admission of men to Mr. E. J. Wiley, Director of Admissions and Personnel. These offices will supply catalogues and information.

Correspondence with regard to the summer Language Schools should be addressed to Mrs. Pamelia S. Powell, Secretary and Recorder of the Summer Session.



*Starr Library*

# *Admission*

STUDENTS are admitted to the Women's College at Middlebury either by certificate or by examination. The College admits only those who are candidates for the A.B. degree. Since the number of students in residence is limited by the capacity of the dormitories, evidence secured by the College in regard to the student's ability, character, and health is carefully considered. Since rooms are assigned to accepted candidates in the order of application students will find it to their advantage to apply a year or more in advance. All candidates are asked to make an appointment, if possible, for a personal interview with the Director of Admissions or with some one whom she may designate.

## *Procedure*

Inquiries with regard to admission to the Women's College at Middlebury should be addressed to the Director of Admissions. After applications have been received, the necessary blanks will be sent. Certificate forms are always sent to the principal of the school. No fee need accompany an application for entrance. Tentative choice of applicants will be made by a series of selections, the first about the twentieth of March preceding entrance, and subsequent ones about the twentieth of each succeeding month until the quota is filled. Applicants whose entrance credits have been approved are required to fill out medical blanks which are supplied by the College. No candidate is finally admitted until the preparatory record is complete and the health requirements met.

## *Admission to the Freshman Class*

For admission, the applicant must present fifteen units. A unit represents a year's study in any subject in a secondary school, the class meeting four or five times a week; it constitutes approximately a fourth of the work which the student ordinarily carries in a school year. In English, however, but three units of entrance credit are given for the work of four years. The requirements in all subjects in which the College Entrance Examination Board offers examinations, are based on the outlines of this Board in those subjects whether the applicant wishes to enter by certificate or by examination. Of the fifteen units required for entrance, eleven or twelve are prescribed; the remaining four or three are elective.

The prescribed units are:

| | |
|---|---|
| English (4 years) | 3 units |
| Foreign Language | 3 units in one and 2 in another, or 4 units in one |
| History | 1 unit |
| Algebra | 1 unit |
| Plane Geometry | 1 unit |
| Science | 1 unit |

The electives are to be chosen from the subjects listed as follows:

| *Language* | *History* | *Science* |
|---|---|---|
| Latin | Ancient History | Mathematics |
| Greek | European History | Chemistry |
| French | English History | Physics |
| German | American History | Biology |
| Italian | | Physical Geography |
| Spanish | | Botany |
| | | Zoology |

With the approval of the Committee on Admission, however, some other subject or subjects may be substituted in the electives listed.

No candidate is admitted with conditions.

Candidates interested in English or a Foreign Language are advised to present three and preferably four years of Latin.

Candidates interested in Mathematics, Chemistry, Physics, or Economics should be able to present three years of Mathematics (Elementary and Intermediate Algebra and Plane Geometry).

## *Certification*

Candidates applying for entrance by certificate must be from approved secondary schools, listed either by the New England College Entrance Certificate Board, the Board of Regents of the State of New York, or some other state or regional accrediting associations.

Schools not upon the approved list of the New England College Entrance Certificate Board, but meeting its requirements in respect to curriculum, teaching staff and equipment, may, for the purpose of showing their standard of certification, send one or more students on certificate, if arrangements for so doing are concluded with the Board before April 1. Inquiries on this subject may be addressed to Professor Frank W. Nicolson, Secretary of the Board, Wesleyan University, Middletown, Conn.

Students who have passed the examinations of the College Entrance Examination Board, or of the Board of Regents of the State of New York, with satisfactory grades, will be credited upon certificate for all such examinations.

## *Special Certification*

Students who have graduated from any approved high school in the first third of the class and whom their principals will certify upon the general record of their courses rather than in individual subjects may be admitted provided they have satisfied the required points as stated above for entrance.

It is understood that in granting special certification to any student, the principal who certifies her is assuming the same obligation for her work that he is for the work of a student to whom he gives regular certification.

### *Progressive Education Association*

The Women's College at Middlebury is co-operating for an experimental period with the Progressive Education Association. In considering candidates from the schools approved by this Association, exceptions to the usual requirements for admission may be made.

### *Examination*

Students desiring to make up deficiencies in certification by examination, or to enter by examination alone may make use of the examinations given by the College Entrance Examination Board. The Women's College gives no entrance examinations.

Students who desire to enter entirely by examination may make application for admission either on the basis of Plan B examinations (examinations in four fundamental subjects) or Plan C. Information on subjects to be chosen for either Plan B or Plan C may be secured by application to the Director of Admissions. It is expected that the student who wishes to be considered for admission by the examinations of the College Entrance Board, will take the Scholastic Aptitude Test.

The College Entrance Examination Board will hold examinations June 18-25, 1938, at over three hundred points in this country and abroad. A list of these places will be published about March 1, 1938. Requests that the examinations be held at particular points should be transmitted to the Secretary of the College Entrance Examination Board not later than February 1, 1938.

Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually about December 1. Upon request to the Secretary of the College Entrance Examination Board a single copy of this document will be sent to any teacher without charge. In general, there will be a charge of thirty cents which may be remitted in postage.

All candidates wishing to take these examinations should make application by mail to the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York, N. Y. Blank forms for this purpose will be mailed by the Secretary of the Board to any teacher or candidate upon request by mail.

The applications and fees of all candidates who wish to take the examinations in June, 1938, should reach the Secretary of the Board not later than the dates specified below. For examination centers:

In the United States east of the Mississippi or on the Mississippi, May 30, 1938.
In the United States west of the Mississippi or in Canada, May 23, 1938.
Outside of the United States and Canada, except in Asia, May 9, 1938.
In China or elsewhere in the Orient, April 25, 1938.

An application which reaches the Secretary later than the scheduled date will be accepted only upon payment of $5 in addition to the regular examination fee of $10.

Any candidate desiring to take the Scholastic Aptitude Test, even though she is to take no other examination, must file with the Secretary of the Board the usual application for examination. If the Scholastic Aptitude Test is taken in connection with other examinations, no additional fee is required; if taken alone, the fee is $10.

## *Qualifying Examinations*

A student satisfying an instructor of fitness to do so may take a qualifying examination in any subject of the freshman year, which, if passed, will be accepted as prerequisite to the succeeding course, but will not entitle the student to college credit for the examination so passed.

## *Admission to Advanced Standing*

A candidate for admission to advanced standing who comes from an approved institution of collegiate rank may receive credit, without examination, for work done at such institution, if a detailed statement of previous work is presented. This statement should include a full list of preparatory subjects accepted for admission by the institution previously attended, and also a list of the subjects taken there for which credit has been attained. A letter of honorable dismissal from the institution last attended also must be presented, and no student who has been separated from another institution for reasons of scholarship will be granted any academic favor that would not be extended by the institution from which the separation was made. Transfer students are not admitted to Senior standing.

Only a limited number of students can be accepted in any year by transfer from other institutions, and all students transferring from other institutions will be provisionally classified for their first year. At the close of this period their credits will be adjusted and it will be understood that in making the adjustment the quality of the work done at Middlebury will be taken into consideration.

## *Freshman Week*

Directly preceding the opening of College a three-day "Freshman Week" is scheduled. The program, aimed to assist Freshmen in their adjustment to the college community, includes an informal assembly of the class on the opening evening, registration, orientation lectures, psychological test, physical examination, and training in use of the library. Each student is assigned to a faculty adviser who assists her in making out her program of studies.

# *Curriculum*

MIDDLEBURY COLLEGE confers one degree, Bachelor of Arts. To obtain the variety of interests and breadth of view which graduation from a college of liberal arts implies, undergraduates are urged to distribute their selection of courses wisely. Students should plan their four years' work, bearing in mind that a comprehensive examination must be taken at the end of the senior year covering all the subjects in which major work was done. Advisers are appointed to give students individual assistance in making the wisest selection of courses.

The first three days of the college year, Monday, Tuesday, and Wednesday, are given over to registration and condition examinations. All students are required to enroll and register their election of courses in the Gymnasium on one of these days. For the second semester registration must be completed at the Registrar's office on or before the Friday preceding it. A charge of $5 will be made for each enrollment after the days assigned for registration. The schedule of courses must be endorsed by the advisers before the Registrar will submit class cards to the instructors.

## *Organization of Courses*

The twenty-seven departments are arranged in three divisions as follows:

| *Language Division* | *Social Science Division* | *Natural Science Division* |
|---|---|---|
| American Literature | Contemporary Civilization | Astronomy |
| Drama and Public Speaking | Economics | Biology |
| English | Education and Psychology | Chemistry |
| French | Fine Arts | Drawing and Surveying |
| German | History | Geology and Geography |
| Greek | Music | Home Economics |
| Italian | Philosophy | Mathematics |
| Latin | Physical Education | Physics |
| Spanish | Political Science | |
| | Sociology | |

The normal number of courses of study required of each student in a given year is five. In order for Sophomores, Juniors, and Seniors to take six courses they must have attained an average of 80 percent in all work of the previous year; to take seven courses, 90 percent. A charge of $30 a semester is made for each extra course.

Undergraduate work is reckoned in semester hours and courses. A semester hour means one period of class work per week for one semester. All courses, unless otherwise stated, are conducted three hours a week, so that the normal amount of classroom work required is fifteen recitation

hours a week, exclusive of preparation. Laboratory courses require double periods, each double period usually counting the same as one hour of recitation.

While the amount of time required for thorough preparation differs in different studies and for different students, every student should allow at least two hours for the preparation of each hour of recitation; the best results of collegiate training cannot be expected from less.

In the first year two of the five subjects are prescribed by faculty regulation. The History of English Literature and Contemporary Civilization are required of all Freshmen. The remaining three courses are free electives and may be chosen from any subjects open to Freshmen. At present these include the college introductory courses in Biology, Chemistry, History, Mathematics, Music, Political Science, and any of the ancient or modern languages. Those who have taken a modern language in high school and have acquired satisfactory preparation may continue the subject in intermediate or advanced courses. Freshmen may take practical work in music but without college credit.

At the end of the freshman year each student, in consultation with a faculty adviser, determines upon a Field of Planned Study to be pursued through the remaining three years. A Field of Planned Study is a group of courses so planned as to form an integrated and coherent whole, attention being paid to the advantageous sequence of courses within a department and to the coordination of courses in different departments. As a rule each Field of Planned Study centers around some one department which sponsors the plan, the courses in that department being designated the major, those in other departments being called cognate courses. The total amount of work comprehended in any Field of Planned Study is not less than 48 and not more than 72 semester hours beyond the work of the freshman year, and not more than one-half of the courses in any plan are to be in the major department, except in the case of a joint major. A joint major is the basis of a Field of Planned Study sponsored by two departments which co-operate for that purpose, in which case two-thirds of the work may be divided between those departments. Each department having facilities for major work publishes one or more Fields of Planned Study based upon work in that department as a major, and in addition may draft individual plans to meet the needs of students having special interest not met by any of the regular plans.

The student's adviser for the freshman year, or the dean, or both, will act as consultants in facilitating the wise selection of a Field of Planned Study. When one has been definitely chosen, a permanent adviser for the remainder of the college course is assigned to the student by and from the department sponsoring the plan chosen.

The following regulations are prescribed for the choice of studies after the first year, and each student before graduation shall meet these requirements as to a major and the distribution of work.

1. At the end of the freshman year a major study shall be elected and not less than twenty-four nor more than thirty-six hours in that department shall be completed beyond the work of the freshman year.

2. Completion of not less than twenty-four nor more than thirty-six hours beyond the work of the freshman year in such cognate courses in various departments as the major department may specify in order to have a unified field of study.

3. The students shall complete a minimum of twelve hours in each group and shall not take more than eighty-four in any one.

Freshmen may not elect more than one course in a department, Sophomores not more than two, and Juniors and Seniors not more than three. The total amount of work in any department may not exceed forty-two hours.

A Sophomore who for any reason is not satisfied with the first choice of a major may at the end of the year change to another subject, but assurance should first be obtained from the department to which the change is proposed that the student will be able to meet its requirements in the remaining two years. After the close of the Sophomore year changes in a major subject will be allowed only for exceptional reasons and with the consent of the major adviser.

No change in studies will be allowed during the first week of classroom work except by permission of the chief adviser. During the second week of classroom work a change may be made only with the permission of the chief adviser and the instructor involved, and the payment of a fee of $5. For making a change during the third week of classroom work a fee of $10 will be required. The fee in each case must be paid to the Registrar before the new Admittance Card is given to the instructor. After the third week of classroom work no change may be made except within a department and upon the initiative of the instructor.

The completion of 40 semester courses of 3 hours each per week, or their equivalent in year courses, is required for a degree. The final year of work must be taken at Middlebury College, except as provided in the coordinated plan with Massachusetts Institute of Technology.

## *Scholarship*

Scholarship is graded on the scale of 100 percent, 60 percent being passing.

Reports of standing are made at the end of each semester. At these times notices of failures are sent to both students and parents.

At least 32 of the 40 semester courses required for graduation must be of not less than 70 percent grade.

A student credited with the equivalent of eight semester courses at the beginning of the college year will be ranked as a Sophomore for that year; with 18, a Junior; with 28, a Senior.

Not more than six semester hours can be attained by an undergraduate at a Summer Session. Proportionate credit, however, will be allowed for work in summer sessions or summer quarters at other institutions where the period of summer work is longer than six weeks.

## *Conditions in College Work*

A student who fails to pass a course at the close of the first semester and is thereby conditioned, but who is permitted to remain in college, is given an opportunity to take a make-up examination either on the first day after the Easter recess or on such one of the first three days of the next college year as shall be determined by the Registrar. A student who is conditioned at the close of the second semester, and who is permitted to remain in college, may take an examination on such one of the first three days of the next college year as shall be determined by the Registrar, or on the first day after the Christmas recess.

Application for the opportunity to remove a condition or deficiency must be made to the Registrar and a fee of $5 paid. If an examination is to be taken, the application to the registrar must be made at least one week in advance of the time set for the examination.

A make-up examination must be taken at the time for which the student registers, unless excused by the Dean in advance.

No exception will be made except that a Senior may take an examination for each deficiency, or condition, incurred during the senior year, on the Friday preceding Commencement, but no make-up in a comprehensive will be offered until the following May.

To remove a condition the average of the term mark and the new examination mark combined in the ratio of three to one must reach 60 percent.

Any student failing to make a condition as provided for above must repeat the course with the following class if the subject is a required one, even though, from conflict of hours or any other cause, it necessitates the temporary omission of some of the regular work of her class.

## *Examinations*

Many courses are offered in year rather than semester units and final examinations on the whole year's work are given in June unless otherwise noted in the course description. When they are listed as half-year courses final examinations are given at the end of each semester.

A student inexcusably absent from an examination will be conditioned. A student unavoidably absent from College at the time set by the Registrar for taking the examination will be given an opportunity without fee immediately upon the return to College or before the beginning of the corresponding semester of the following year. If one fails to meet this

requirement, the course must be repeated with the following class if the subject is a required one.

A student whose grade in any course falls below 50 percent is excluded from examination and must, if the subject is a required one, repeat it with the following class.

A student will be conditioned whose recitation and examination mark combined in the ratio of three to one is below 60 percent. No student whose examination mark is below 50 percent will be allowed to pass.

## *Comprehensive Examinations*

At the end of the senior year every student must pass a general examination testing comprehensive knowledge of the subject in which major work was chosen and covering all of the requirements in that department. A passing grade of 60 percent in this is required for graduation. This examination is divided into not less than two parts of at least two hours each, and given a week or more before the beginning of final examinations. Each department may require related courses in other departments, as part of the material of the general examination.

Students majoring in a modern language should have the ability to understand, speak, and write the language easily and should have acquired a knowledge of the history and civilization, the chief authors and main currents in the literature of the country.

A student who fails to pass the comprehensive may not take a second examination until the following May.

Students who pass the comprehensive examination with a grade of 75 percent may, at the discretion of the department, be excused from final course examinations in any or all courses that may fall within the field of concentration, including allied courses accepted for this purpose. It is understood, however, that no student is excused from any other requirement in courses.

The week previous to the time taken up by the Comprehensive Examinations is considered a Reading Period for Seniors and classes composed of over 80 percent Seniors may be discontinued at the discretion of the instructor. In all other courses Seniors are held responsible for material content which can be covered by reading or laboratory work, but are not required to attend classes nor held responsible for the class discussion. Departments assist students in organizing and coordinating their material for the comprehensive examinations by individual conferences, group seminars, series of lectures, reading lists and syllabi, sample examinations, or senior coordinating courses.

The purpose of the comprehensive examination requirement is to put the emphasis on the assimilation of knowledge and on the acquisition of a broad and deep comprehension of the student's major subject, both in the various phases of the subject itself and also in its relation to other branches

of knowledge. The required and recommended courses indicated by each department are a guide to the material to be covered by the examination. Instead of the mere accumulation of points from a certain number of isolated courses passed, the Middlebury Bachelor's Degree represents a unified body of intellectual experience, gathered and assimilated over a period of four years, and correlated for practical application to intellectual problems.

## *Departmental Honors*

As an incentive to such students as have the ability to do more than should be required of the majority, and to promote and encourage individual investigation in the various departments of the curriculum, the faculty has established a system of honors. These are divided into two classes, Honors and High Honors, and are subject to the following regulations:

1. Honors must be sought in the department in which the candidate is concentrating, and at the end of her course her application for Honors must have the unanimous recommendation of the department.

2. The candidate shall announce the intention of working for Honors to the head of the department concerned at a time not later than the registration period at the beginning of the senior year. It is urgently recommended, however, that the candidate consult with the departmental head at as early a time as possible in order that the requirements for Honors in the department concerned may be thoroughly understood and completely met.

3. Each candidate for Honors shall be required to pass by unanimous vote of the entire department concerned a special comprehensive examination to be devised and administered by the department in which Honors are sought and as specified in Section 6 that follows. Each department shall issue at least one year before the date set for the special examination a statement of the material on which the examination shall be based and shall have the right to include such special requirements as seem suitable, such as complementary courses in allied departments, etc.

4. In order to secure Honors a student must have obtained an average rank of not less than 80 percent in the department in which Honors are sought; a general average of not less than 80 percent in the entire college course, and a grade of 85 percent in the special comprehensive examination. In order to secure High Honors the student must obtain an average rank of not less than 90 percent in the department in which High Honors are sought; a general average of not less than 85 percent in the entire college course, and a grade of 90 percent in the special comprehensive examination.

5. Candidates for Honors are expected to consult frequently with departmental heads concerning their progress in fulfilling requirements and in general concerning their preparation for the special comprehensive examinations.

6. Candidates for Honors shall be required to take the regular Departmental comprehensive examination with the addition of sufficient examination material to test the candidate's special preparation in his Honors work. It should be understood that this additional material with the regular departmental comprehensive examination shall constitute in effect a special examination. Should the candidate be unsuccessful in passing this examination the grade shall be recorded and the candidate shall then be given a grade for a regular comprehensive examination. Such candidates will, therefore, be subject to the usual requirements governing the regular comprehensive examinations required of all students.

These honors will be printed on the Commencement program and in the next annual Catalogue, and will be certified to, when requested, by a written certificate from the Registrar and the professor of the department, stating the nature and quality of the extra work done.

The degree of A.B. is conferred *cum Laude* upon those who have attained an average rank, for the entire course, of 85 to 90 percent; *Magna cum Laude* if that rank is 90 to 95 percent; *Summa cum Laude* if it is 95 percent or above.

## *Honorary Appointments*

The faculty, under the direction of the Corporation, give the honorary Commencement appointments in College: to the woman attaining highest rank, the appointment of Valedictorian, and to the second in rank, the appointment of Salutatorian.

## *Phi Beta Kappa*

The Middlebury Chapter of the Phi Beta Kappa Society is the Beta of Vermont. Members of each senior class, who have attained an average rank of 89 percent for six semesters, or an average rank of 87½ percent for eight semesters are eligible for membership, up to a maximum of 15 percent of the class.

*Warner Science Hall*

# *Courses of Instruction*

Most of the courses meet three times a week. The year in which a course would be elected most effectively by the average student is clearly indicated by the number used to define the course: numbers from 11 to 19 inclusive indicate freshman courses; numbers from 21 to 29, sophomore courses; from 31 to 39, junior courses; and from 41 to 49, senior courses. Figure 1 following the decimal point in the number of a course (*e.g.*, 21.1) shows that it is a first semester course; figure 2 (*e.g.*, 21.2) that it is a second semester course; the number without figure following decimal point (*e.g.*, 21.) indicates that it is a year course. Unless otherwise stated semester courses carry 3 credits and year courses 6 credits toward the required 120.

Prerequisite courses are shown in parentheses. *Bracketed courses are not given in the current year.* Not more than three courses in one department may be taken at the same time except by permission of the Administration Committee. In any modern language, students of any class will be assigned to those courses for which, in the judgment of the instructor, they are best fitted.

## *American Literature*

Professor Cook

Courses required for Comprehensive Examination: 21.; 31.; 41.1 or its alternate; 42.2 or its alternate.

*21. American Literature Survey.*

A study of the main currents of literary thought in America to 1900, with particular emphasis on selected works of some major writers.

*31. The American Novel.*

A study of the main tendencies in the development of the novel in America. (American Literature 21.) (Permission.)

*41.1 Contemporary American Poetry.*

A study in contemporary American poetry as revealed in the work of outstanding poets. (American Literature 21.) (Permission.)

[*41.2 The American Short Story.*]

A study of the development of the short story in America. (American Literature 21.) (Permission.)

*42.2 Emerson and Thoreau.*

An intensive study of the work of major American authors who have made important contributions to American thought. (American Literature 21.) (Permission.)

*51. Special Research Courses.*

Open to qualified students. Recommended for Seniors preparing to obtain honors in American Literature. (American Literature 21.) (Permission.)

## *Astronomy*

Assistant Professor Haller

*21.1* A non-mathematical course giving a general survey of the physical universe including the motions and physical conditions of the earth and heavenly bodies. Sufficient use is made of the observatory to acquaint the student with the principal constellations, the moon, planets, and nebulæ. Observations will continue in favorable weather through both semesters. (Permission.)

## *Biology*

Professor Longwell
Professor Barney

Courses required for Comprehensive Examination: 11.; 21.; 22.; 31. Courses recommended: Chemistry 11.; Chemistry 23.; Philosophy 22.2.

*11. General Biology.*

An introduction to the fundamental biological laws and to the study of the interrelation of organisms; structure and function of physiological systems; laboratory study of selected animals and plants.

*Laboratory fee, $10 per semester.*

Professor Longwell.

*21. Comparative Anatomy of Vertebrates.**

A comprehensive study of vertebrate structure with special reference to man, adaptation, and evolution. Dissection of selected animal types. (Biology 11.)

*Laboratory fee, $10 per semester.*

Professor Longwell.

* Open to Graduate Students.

*22. Structure and Physiology of Plants.*

The morphology and physiology of seed plants; a general survey of the plant kingdom from the viewpoint of comparative morphology and physiology. (Biology 11.)

*Laboratory fee, $10 per semester.*

Professor Barney.

*31. General Physiology.**

The functions of organs of the human body; physical and chemical nature of protoplasm; the structure of cells; cell physiology; chemistry of foods; digestion; metabolism; circulation; respiration; endocrine function; the vitamins; excretion; the neuro-muscular mechanism. Designed for the general student and those interested in dietetics, hygiene, physical education, and medicine. (Biology 11.) (Desirable antecedents, Chemistry 11. and Biology 21.)

*Laboratory fee, $10 per semester.*

Professor Barney.

*41. General Bacteriology.**

Lectures and laboratory practice; structure and physiology of bacteria; the technique of their study; preparation of stains, reagents, culture media; determination of species; the bacteriology of water, sewage, milk, shellfish; animal immunity, cyclogeny, bacteriophagy. (Biology 11.)

*Laboratory fee, $10 per semester.*

Professor Barney.

[*42.1 Genetics.**]

Principles of variation, selection, and heredity. Laws of inheritance in plants and animals. Human inheritance and its significance to society. Designed for advanced students in Biology and for those specializing in the social sciences. (Biology 11.) (Given in alternate years.)

*Laboratory fee, $5.*

*43.1 Embryology and Histology.**

A study of the development of the human body. The reproductive cells: maturation, fertilization, cleavage, etc., and development of the principal functional systems.

Laboratory study of early stages in the chick, dissection and study of later embryonic stages of the pig. Preparation and staining of animal tissues. (Biology 11.) (Given in 1937-38 and in alternate years.)

*Laboratory fee, $5.*

Professor Longwell.

*45. Special.**

Individual research in a restricted field. (Permission.)

*Laboratory fee, $10 per semester.*

Professor Longwell and Professor Barney.

* Open to Graduate Students.

## *Chemistry*

Professor Voter
Associate Professor Haller
Associate Professor Womack

Mr. Johnson and other Assistants

Courses required for Comprehensive Examination: 11. or 13.; 21.; 23.; 31.; 41.; or their equivalents; Mathematics 11. and Physics 21.1, .2, or their equivalents; general knowledge of the literature and historical development of Chemistry (covered by 33. when given); reading knowledge of either German or French, German preferred.

Courses recommended: Chemistry 49., Economics, Psychology, Philosophy, and Logic. Additional work in Mathematics, Physics, and English, and a third science desirable.

A deposit fee to cover cost of broken apparatus is charged in each laboratory course, to be paid to the Treasurer at the beginning of each semester.

Students seeking Honors in this Department should consult with Head of the Department regarding additional requirements to those listed elsewhere in this catalogue.

*11. Introductory General Chemistry.*

Introduction to the fundamental principles of general chemistry, with the preparation and study of the elements and their more common compounds in the laboratory.

*Laboratory fee, $10 per semester and breakage.*

Associate Professor Haller and Assistants.

*13. General Chemistry.*

Similar to Chemistry 11. but more advanced. Open to students who have passed the Entrance Board examination in chemistry and by permission to others who have had a satisfactory secondary school course.

*Laboratory fee, $10 per semester and breakage.*

Associate Professor Haller and Assistants.

*21. Qualitative Analysis and Introductory Physical Chemistry.*

Lectures and laboratory work. Complete analysis of inorganic substances including alloys, minerals, and commercial products. Selected phases of elementary physical principles as a basis for understanding the underlying causes and technique of analytic and organic chemistry. (Chemistry 11. or 13.)

*Laboratory fee, $10 per semester and breakage.*

Professor Voter, Mr. Johnson.

*23. Introductory Organic Chemistry.*

Lectures and laboratory work on the carbon compounds. The methods of synthesis, properties, structures, industrial application, and physiological action of the more important members of each group are studied in detail. (Chemistry 11. or 13.)

*Laboratory fee, $12 per semester and breakage.*

Associate Professor Womack.

*31. Quantitative Analysis.**

Laboratory work and lectures dealing with the general methods of Quantitative Analysis, gravimetric, volumetric, and electrolytic. (Chemistry 21. or 23.)

*Laboratory fee, $10 per semester and breakage.*

Professor Voter.

[*33. Historical Chemistry and Chemical Literature.**]

A brief survey of the history of chemistry and development of chemical theory. A study of the literature of chemistry. (Chemistry 21. or 23.)

[*35. Biological Chemistry.*]

Lectures and laboratory work on the biochemistry of foods, digestion, nutrition, and metabolism. Practical methods of blood and urine analysis; the chemistry of the tissues in health and disease. Meets the requirements of students concentrating in Home Economics and pre-medical students. This course should appeal to advanced students interested in the application of pure Chemistry to Biology. (Chemistry 23., Biology 31. at least simultaneously.)

*Laboratory fee, $10 per semester and breakage.*

*41. Physical Chemistry.**

Lectures and laboratory work. A systematic presentation of modern chemical theory. The subject matter includes Atomic and Molecular theory; gases, liquids, and solids; theory of solution; colloid chemistry and adsorption. reaction velocity, catalysis, and equilibrium in homogenous systems; The Phase Rule, Thermochemistry, Electrochemistry and Photochemistry. (Chemistry 21., 23., 31., at least simultaneously.)

*Laboratory fee, $10 per semester and breakage.*

Associate Professor Haller.

*43.1 Advanced Organic.**

Lectures on the characterization of pure organic compounds. Unknown substances are analyzed qualitatively in the laboratory, and some introduction to the quantitative determination of the common elements and functional groups in organic compounds is given. (Chemistry 23. and 31.)

*Laboratory fee, $12 for the semester and breakage.*

Associate Professor Womack.

*43.2 Advanced Organic.**

Advanced preparations, including a critical study of the mechanisms of important reactions with investigations of the original literature, and individual reports on special problems. (Chemistry 23. and 31. Chemistry 43.1 is not a prerequisite.)

*Laboratory fee, $12 for the semester and breakage.*

Associate Professor Womack.

* Open to Graduate Students.

[*45.2 Industrial Chemistry.**]

Lectures on the principal chemical industries, such as fuels, acids, gases, coal tar, etc. A study of the chemical reactions and apparatus used on a large scale. No laboratory work. (Chemistry 23., 31., at least simultaneously.)

*Fee for industrial trips, $6.*

[*47.1 Chemical Microscopy and Spectroscopy.**]

Microscopic methods applied to chemical investigations. Study of crystalline compounds, recognition of paper and textile fibers. Rapid inorganic chemical analysis of minute samples. Spectroscopic methods applied to chemical investigations. Mapping and photographing spectra, spectroscopic analysis, detection of impurities. (Chemistry 21., 23., and 31.)

*Laboratory fee, $10 and breakage.*

*49. Advanced General Chemistry.**

A comprehensive survey of chemical principles and practice; the history and literature; modern methods; optical and electrical instruments; problems involving a limited amount of laboratory work; visits to industrial plants; and preparation for comprehensive examinations. Especially recommended for students majoring in chemistry. This course is substituted for courses 45.2 and 47.1, in 1937-38. (Chemistry 41., at least simultaneously.)

*Laboratory fee, $5 per semester and breakage.*

Associate Professor Haller.

*51. Research.**

Open to properly qualified students. Recommended for candidates for the Master's degree and for Seniors seeking honors in chemistry. (Permission.)

*Laboratory fee and breakage to be arranged individually.*

a. Inorganic and Analytical Chemistry. Professor Voter.
b. Analytical and Physical Chemistry. Associate Professor Haller.
c. Organic and Biological Chemistry. Associate Professor Womack.

## *Contemporary Civilization*

Associate Professor Heinrichs

Course required of all students in their freshman year.

*11.1, .2* An orientation and correlation course on Current International Relations, the aim of which is to acquaint the student with life and thought of the principal countries of our present-day world. Representative European, American, and Oriental countries will be studied for their significant social and political experiments in the post-war period, showing their economic, social, and historical backgrounds and bearing on the life of the citizens of America today. The text sources are the *New York Times,*

* Open to Graduate Students.

(the *Herald Tribune* or *Christian Science Monitor,* if preferred) and an extended list of the latest books on current subjects. A written book report is required every two weeks, and is carefully scrutinized by the staff of the department. Two class lectures and one discussion period per week in small groups.

*A book fee of $5.00 per semester is made for text and source material and to aid in securing prominent outside lecturers to deal with special subjects.*

## *Drama and Public Speaking*

Professor Goodreds
Mr. Wilkes

Courses required for Comprehensive Examination: 21.1; 31.2; 32.; 43.1; 42.2.

This department covers the work in play production, playwriting, the study of modern drama, public speaking, and debating.

The courses are adapted to develop the students to the point where they may take charge of similar courses in college or in school, or be community leaders in the Little Theatre movement.

*21.1 Principles of Speech. (Voice and Diction.)*

Development and use of the speaking voice with special attention to social needs of speech; techniques of speech such as breathing, phrasing, intonation, and stress. Attention given to the elimination of throat fatigue, nasality, extremes of pitch, indistinctness, monotony, mispronunciations, and vocabulary. Phonetics. Individual guidance and criticism. Voice recordings. Practice in reading prose and poetry from the printed page, and short speeches.

*Laboratory fee, $1.*

*21.2 Principles of Speech. (Rhetoric and Composition.)*

A study of the principles which underlie effective speech. The relation of speaker and audience considered from the psychological standpoint. Rhetorical principles for the development of an adaptable and effective oral English style. Attention to the problems of exposition, interest, and persuasion, argumentation. Work is also directed toward expressive action and pleasing platform manner. While most of the speeches are of the extempore form prepared by outline before delivery, attention is given to the other forms. Maximum speaking practice with discussions and limited criticisms. (Permission.) Seniors, Juniors, and Sophomores.

*31.2 Modern Drama.*

Continental, English, and some American drama of the recent and contemporary dramatic era. The course will deal mainly with the authors from Ibsen up to the present day, but will not confine itself to the study of plays written within a certain arbitrary period. Lectures, reading of a large number of plays, discussions. Seniors, Juniors, and Sophomores.

*32. Play Production.*

This course considers the organization of dramatics in schools, colleges, and community houses; it offers a study of the contemporary methods of Play

Production; the principles and problems involved in producing plays, staging, costuming, make-up, acting, lighting, directing, scenic design, etc., through the practical medium of the presentation of several long plays and numerous one-act plays in the College Playhouse. A study of plays available for production is made along with the study of production methods, thus building up a background of information necessary for intelligent adaptation of material. Each student is expected to spend several hours a week in laboratory work. (Permission.)

*Laboratory fee, $2.50 per semester.*

[*33.2 Appreciation of the Drama.*]

Technical considerations of the major dramatic forms or types, such as tragedy and comedy; dramatic modes, Classicism, Romanticism, Realism, Naturalism; elements of dramatic technique, substance and form of the play, plot, characterization. A brief survey of periods which best represent the desired dramatic elements to be considered. (Alternates with 31.2.)

*43.1 Play Direction and Dramatic Interpretation.*

This course offers training in the principle of play direction and the elements of acting which are included in the proper interpretation of dramatic rôles, improvisation, emphasis upon different forms of dramatic reading; study of pantomime and stage business. Opportunity is given for direction in the experimental plays. (Permission.) Seniors and Juniors.

*Laboratory fee, $2.50.*

*42.2 Advanced Studies.*

Properly qualified Seniors may be permitted to undertake the study of advanced problems in the field of Drama. The course will be conducted mainly as a seminar. Students will be expected to spend considerable time in laboratory work. (Permission.)

*Laboratory fee, $2.50.*

## *Drawing and Surveying*

Professor Swett

*21.1 Elements of Drafting.*

A course in drafting designed for two classes of students: (1) those preparing for the engineering profession; (2) those desiring a course in graphics to aid them in rendering plans and graphs in the various fields in which they may be of use.

*Instrument fee, $2.50.*

*21.2 Mechanical Drawing.*

A continuation of Drawing and Surveying 21.1 for students desiring a full year's work in drafting. (Drawing and Surveying 21.1.)

*Instrument fee, $2.50.*

## *Economics*

Professor Fife
Associate Professor Rusby
Associate Professor Prentice

Courses required for Comprehensive Examinations and Majors: 21., 31., 41., 48., 42.1, and 43.2 or their equivalent.

Recommended minor groupings, and cognate courses:

*20. Economic Society.*

A survey of economic society stressing current economic conditions and problems. The course is designed to meet the needs of students who desire to take only one course in economics. This course will not be accepted in lieu of Economics 21. as prerequisite for advanced courses in economics. Mid-year examination. Sophomores, Juniors, and Seniors.
Associate Professor Rusby.

*21. The Principles of Economics.*

An introductory course covering the general field of economics. The basic concepts. The production and exchange of wealth. Value and price. The mechanism of exchange—money and banking, marketing, international trade, etc. The distribution of income—rent, wages, interest and profits. Labor problems. The types of economic organization of society—capitalism, socialism, communism, etc. Government finance and taxation. Mid-year examination. Sophomores, Juniors. (Seniors by permission.)
Professor Fife, Associate Professors Prentice, Rusby.

*31. The Financial Organization of Society.*

A survey course. The development and functioning of financial institutions. Money and credit. Corporations and their financing. Commercial, investment, and savings banks. The American banking system. The stock exchange. Financing agriculture, etc. (Economics 21.) Mid-year examination.
Professor Fife.

*Economic History.* (See History 32.)

Associate Professor Prentice.

*33.1 Marketing and the Principles of Exchange.*

A study of market structures, and the marketing process, with special reference to agricultural products, raw materials, producers' and consumers' goods. Marketing functions, and the middleman structure. Relations between consumers, middlemen, and producers. Co-operative marketing. Cases and problems. A case study is required. (Economics 21.)
Associate Professor Rusby.

*33.2 Transportation.*

The development and significance of the modern system of communication. The principles of land and water transportation. American experience and problems. The Interstate Commerce Commission and the railways. The Merchant Marine past and present. Government Control and Government Ownership of transportation facilities. Labor Problems and the Carriers. (Economics 21.)
Associate Professor Rusby.

*34.2 Corporation Finance and Investments.*

The rise of Corporate forms of organization. The promotion and financing of the corporation. Raising and managing capital. Principles of investment, and the analysis of securities. (Economics 21. and 31. Economics 31. and 34.2 may be taken contemporaneously.)
Associate Professor Prentice.

*37.1 The Principles of Accounting.*

Interpretative accounting. The bookkeeping process is reduced as much as possible, and interpretation stressed. (Major work in Economics.) (Economics 21. Not counted towards a major.)
Associate Professor Prentice.

*41. Labor Conditions and Problems.**

The course deals first with the origin of labor problems, the rise of capitalism and the wage system, freedom of contract, etc. Second, labor conditions and the standard of living. Third, the workers' approach to their own problems—collective bargaining, the trade union, and the workers' philosophy. Fourth, the employers' approach to the labor problem—the employers' association, labor management, and employer philosophy. Fifth, the social approach to the labor problem—the social conflict between capital and labor, labor legislation, and social goals and welfare. (Economics 21.) Mid-year examination.
Associate Professor Rusby.

*42.1 Government Finance.**

The evolution of Government Finance. Governments as collective spending agencies. The modern increase in public expenditures, and the need for budgeting. The various forms of revenue. Taxation and tax incidence. Public industries, public domain, and public monopolies. Public credit, and the public debt. (Economics 21. and 31., also open to students taking major work in Government.)
Professor Fife.

[*42.2 Social Control of Economic Activity.**]

The course is conducted on seminar basis with thesis. It aims to discuss the economic philosophy of modern times, and deals primarily with the

* Open to Graduate Students.

relations between government and the economic activities of the people such as competition and monopoly, regulation and control, promotion and prohibition, capitalism versus socialism, and other suggested forms of economic organization of society.
Seminar for Honor or Graduate Students.

*43.2 International Trade and Finance.**

International Trade in theory and practice. Our markets and competitors. Governmental regulation of international trade. Free Trade, Tariffs, Reciprocity, Preferences, and most favored nations agreements. (Economics 42.1.)
Professor Fife.

[*44.2 Applied Economics.**]

The course deals with major economic problems in such a fashion as to correlate economic principles with the currents of economic society. (Option for comprehensive examination.) (Permission.)

*45.1 Money and Banking.**

An advanced course studying the development of money and banking in U. S. and the major foreign banking systems, the Federal Reserve System, and International Banking. (Economics 21. and 31.)
Professor Fife.

*48. Economic Thought and Modern Economic Tendencies.**

A study of economic thought as it has evolved in the light of economic history, and present tendencies in economic thought and theory. (Economics 21. Seniors only. Required of all major students.) Mid-year examination.
Associate Professor Prentice.

[*46. Honors and Special Courses.**]

Special courses for graduate and honor students and for research work may be arranged to suit the needs of students.

Note: Those interested in economics as their major study are advised to elect as many of the following courses as possible: Economic Geography, Economic History, Business Law, Mathematics of Finance and Statistics. Courses in psychology, philosophy, and sociology are also recommended where possible. These are regarded as related and allied fields. Honor students must offer Economic History (History 32.) and Economic Geography (Geology and Geography 25.1, .2.). Students preparing for business should make a special effort to secure a good grounding in English.

Honor students are required to take a written general examination covering the special field of interest, and an oral general examination covering the entire field of economics as offered in the courses. In addition a thesis is required based on independent study and research.

* Open to Graduate Students.

## *Education and Psychology*

Professor Howard
Professor Adams
Assistant Professor Andrews

Professor Sholes

*Notes on courses in Education:*

Majors in Education are not permitted except under conditions noted in college bulletin, "To College with a Purpose." Students planning to teach should be prepared in at least one subject in addition to their major.

Requirements for certification in the eastern states will be supplied through special bulletins prepared by the Department.

*Notes on courses in Psychology:*

No major in Psychology is offered but students having special interest in the subject may arrange for a correlation of courses between this Department and the Departments of Philosophy or Sociology.

See courses 45.1, 45.2.

*21.1 Educational Psychology (Introductory Course).*

Inborn tendencies and their functions; motivation; various conscious processes and their function in mental growth; learning and habit formation; intelligence; individual differences; factors in human personality; mental hygiene.

Professor Howard and Assistant Professor Andrews.

*22.2 Social Psychology.*

A study of the forms of human behavior which characterize the group; their relation to social progress, nationality, community and institutional life, and individual development. (Education 21.1.)

*Book and trip fee, $5.*

Professor Sholes.

*23.2 History of Education.*

The historical evolution of educational theories and practices. Great educational reformers and their influences. Following a study of the European background, emphasis will be given to the development of present American systems of education. (Education 21.1.)

Professor Adams.

*24.2 Fields of Psychology.*

A survey of the problems, interpretations, principles, methods, and achievements in the major fields of psychology. The contribution of psychology to human welfare will be emphasized. (Education 21.1 and permission.)

Assistant Professor Andrews.

*34.1 Philosophy of Education.*

The aims and bases of current educational practices. Principles involved in the selection and organization of subject matter and in the learning process. Aims and achievements of recent re-organizations. Some inherited problems. Study of such problems as interest and motivation,

individual differences, moral and civic instruction, training for appreciation. Two courses in Education.
Assistant Professor Andrews.

*34.2 Educational Psychology (Advanced Course).*

Human motivation; individual differences and capacities; intelligence and achievement tests; types and principles of learning; mental training and transfer; critical analysis of various theories and practices in modern education in the light of psychological principles; psychology and teaching. (Education 21.1.)
Professor Howard.

*41.1 Problems and Methods in Secondary Education.*

Study of types of teaching, types and function of recitation, supervised study, collection and use of materials, use of teachers' devices, general and special method technique of instruction, text-book criticism, and presentation of lessons and use of educational literature. (Seniors only.)
Professor Adams.

*42.1, .2 Practical Work in Education.*

Qualified seniors are given an opportunity to do apprentice work at the local high school. This consists of observation, reading papers, supervising laboratory work, giving special assistance to pupils individually or in small groups, and at times taking charge of the class under the direction of the teacher. The details of the work will vary according to the nature of the subject, but each apprentice teacher will be given much first-hand experience with problems of management and instruction. Frequent group conference with an instructor in the Department will be required. (Permission.)
Professor Howard.

*45.1, .2 Advanced Studies in Psychology.*

Open to graduate students and qualified seniors who wish to pursue psychological study beyond that offered in Education 21.1, 22.2, 24.2, and 34.2. The course will be organized on the seminar plan, each student pursuing some line of investigation and presenting his material from time to time for critical discussion and review by members of the class and the instructor. (Three courses in psychology and permission.)
Professor Howard.

*Courses in Special Methods.*

The following departments offer courses in special methods. Descriptions of these courses are given under the announcements of the respective departments.

| | | |
|---|---|---|
| English | History | Mathematics |
| French | Home Economics | Physical Education |
| German | Latin | Spanish |

## *English*

Professor Beers
Professor Cady
Associate Professor Owen
Assistant Professor Perkins
Assistant Professor Brown
Mr. Footman

Dr. Adams

Required for Comprehensive Examination: 11.; and two of the following: 22.1 and 23.2 (considered as one course), 31., 32.

Recommended: English Literature course in sophomore year; History 23; American Literature 21.

### I. COURSES IN LITERARY HISTORY

*11. History of English Literature.*

Required of all Freshmen.
A survey of the periods of English Literature studied in relation to historical background. Works of all the major and of many minor writers are read. Training in composition is given, and theme assignments are made for each month. Mid-year examination.
Professor Beers, Associate Professor Owen, Assistant Professors Perkins and Brown and Mr. Footman.

Freshmen who have had a similar course in high school may anticipate this course by passing an examination in September with a grade of 75; but this examination will not carry credit for the course, and another English course must be taken. (Any student whose composition work in this course falls below 75 is required to pass English 21. before credit for English 11. is given.)

*22.1 Prose and Poetry of the Romantic Period.*

The major representatives of the Romantic Movement, from Wordsworth to Tennyson, including the forerunners of the movement and its philosophy.
Professor Beers.

*23.2 Prose and Poetry of the Victorian Period.*

The Victorian poets and essayists. Particular attention to the poets Tennyson, Browning, Rosetti, and Morris, and to the essayists Carlyle, Ruskin, Arnold.
Professor Beers.

*31. Literature of the Renaissance.*

A study of the literature from 1400 to 1660, the drama excluded, as a record of the main currents of thought. The early humanists, Spenser and Milton, will receive the major emphasis. (Permission.)
Professor Cady

*32. Literature of the Neo-classical Period.*

The development of literature from 1660 to 1800, with particular consideration of the Neo-classic school, the age of Johnson, and the Pre-Romantic writers. Mid-year examination. (Permission.)
Assistant Professor Brown.

[*41.1 Literature from the Anglo-Saxon Period to Chaucer.**]

The work extends from about 500 to about 1350, and includes readings in Old and Middle English prose and poetry. The Old English will be read in translation, the Middle English in the original. (Permission.)

### II. COURSES IN DRAMATIC LITERATURE

*30. Shakespeare.*

A detailed reading of typical plays with the purpose of developing an appreciation of them as drama. (Permission.)
Professor Cady.

*35. Elizabethan Drama.*

The main trends of dramatic development from 1580 to 1642, with attention to the growing perception of dramatic theory and technique. (Permission.)
Professor Cady.

### III. COURSES IN COMPOSITION

*21. Elementary Composition.*

Readings and weekly themes. Required of students deficient in English 11.; elective to others who are handicapped in self-expression. Mid-year examination.
Mr. Footman.

[*28. Writing from Models.*]

Composition for students who desire to discover their own abilities or need to gain greater fluency and effectiveness. Practice in the shorter literary types and readings in modern authors. Mid-year examination.

Designed to help students to understand the country and its people, either for teaching or for travel.

This course is required of Seniors majoring in French; during the second semester the regular work of the course will be supplemented by tutorial conferences on topics of individual reading and research, especially designed for Honors candidates, and by weekly meetings with Professor Freeman for discussion and review in preparation for the comprehensive examination.

Assistant Professor Bourcier.

*45. Special.** (Individual research in a restricted field.)

Candidates for the Master's Degree and Seniors, if properly qualified, may be permitted by the Chairman of the Department to undertake a special problem in reading and research under the direction of some member of the department. A thesis, or an examination, or both, will be required at the end of the course. Properly qualified graduate students may undertake two such separate problems.

a. Literature from the Middle Ages to the contemporary period.

Professor Freeman, Assistant Professor Bourcier.

* Open to Graduate Students.

b. Civilization, Geography, and History.
Assistant Professor Bourcier.

c. Grammar and Teaching Methods.
Professor Freeman.

d. Phonetics.
Associate Professor Ranty.

Note 1: All courses in the French Department are conducted in French, at the Château. Students intending to teach French after graduation should attend at least courses 31.; 32.; 41.1 and 41.2.

Note 2: No thesis is required for the Master's Degree except such dissertations as are required in the separate courses pursued.

## *Geology and Geography*

Professor Swett
Associate Professor Schmidt

### I. GEOLOGY

Courses required for Comprehensive Examination: 21.1, .2; 31.1, .2; 32.2; 25.2; 41.; Drawing and Surveying 21.1 and 31.2.

*21.1 Physical and Structural Geology.*

The physical features of the earth; the agencies responsible for our topography; the structure of the earth's crust; and the more important rocks and minerals. Field trips.

*Fee, $4* (covers field trips).
Associate Professor Schmidt.

*21.2 Historical Geology.*

The probable origin of the earth; the rise and evolution of organic forms as disclosed by fossil remains and the causes responsible for this progressive development; and the past history of oceans, climates, and continents. Field trips. (Geology 21.1.)

*Fee, $2* (covers field trips).
Associate Professor Schmidt.

*31.1 Mineralogy.*

The identification of the important minerals by blowpipe, flame, assay, bead and sensitive chemical tests. The crystal structure of the minerals will also be considered. Field trips. (Geology 21.1 or Chemistry 11., or permission.)

*Laboratory fee, $5.*
Associate Professor Schmidt.

[*31.2 Economic Geology.*]

The metallic and non-metallic mineral products of the United States and their world-wide distribution (coal, petroleum, salts, fertilizers, iron, copper, gold, silver, etc.); their origin, processes by which formed or later changed, their geologic structure, their abundance and economic impor-

tance. Field trips and reports. (Geology 21.2 and 31.1.) (Alternates with Geology 32.2.)

*32.2 Geology of North America.*

A detailed survey of the geologic history, the rock structures, and the mineral deposits of the different physiographic provinces of North America. Classroom discussion, outside reading in Geologic Literature, and reports. (Geology 21.2 or permission.)
Associate Professor Schmidt.

*41. Special.*

Individual research in a restricted field. Limited to students majoring in Geology and Geography.
Associate Professor Schmidt.

## II. GEOGRAPHY

Courses required for Comprehensive Examination: Geology and Geography 25.1, .2; 35.1, .2; 21.1, .2; 45.

Courses recommended: Drawing and Surveying 21.1, and at least one year each of economics and history.

## *Mathematics*

Professor Perkins
Associate Professor Wiley
Assistant Professor Bowker

Courses required for Comprehensive Examination: 11.; 21.; 31.; 41.; and one other course in the department; Physics 21.1, .2.; or Mathematics 11., 21., 23., 32., and one other course in the department; with Physics 21.1, .2.

Courses recommended: Other courses to be selected with the advice of the department.

*11. Elementary Mathematical Analysis.*

Designed to give a comprehensive survey of the most useful parts of elementary mathematical theory carefully correlated and given unity around the central idea of the universality of the cause and effect relation. Practice is given in such parts of the elements of trigonometry, analytic geometry, and the calculus as are essential for the solution of simple problems and the reading of any texts dealing with elementary physics, chemistry, economics, or any of the other sciences.

Associate Professor Wiley.

*21. Mathematical Analysis.*

The logical continuation of Mathematics 11. offering some opportunity for review of the theory covered in the freshman year. (Mathematics 11.)

Associate Professor Wiley.

*22. Mathematics of Finance.*

For those whose chief interest lies in other fields than mathematics, this, as a sophomore course, offers a good training in finance. Such topics as the mathematics of investment, of amortization of debts, of depreciation of annuities and of insurance are treated. Other students are advised to defer this course until a later year. (Permission.)

*Fee, $2.50 per semester.*

Professor Perkins.

* Open to Graduate Students.

*23. Spherical Trigonometry and Introduction to Analytic Geometry.*

A continuation of Mathematics 21. for those whose chief interest lies in other fields than mathematics but who desire preparation for the study of Astronomy. (Mathematics 11.)
Associate Professor Wiley.

*31. Applied Mathematical Analysis.*

A continuation of Mathematics 21. It should be elected by students whose chief interest is in mathematics and by those who plan to continue along the main line of development of the subject. (Mathematics 21.)
Assistant Professor Bowker.

*32. Plane and Solid Analytic Geometry.*

For students whose interests are in the geometrical and interpretive field of mathematics this course offers a good introduction to modern methods in geometrical analysis. (Mathematics 23.)
Associate Professor Wiley.

*41. Differential Equations.**

A continuation of Mathematics 31., but the content will be varied somewhat from year to year to meet the needs of those electing the course. (Mathematics 31.)
Professor Perkins.

*42. Teaching of Preparatory Mathematics.*

Essentially a senior course for prospective teachers of high school mathematics.
Consideration of the place and the use of arithmetic, algebra, geometry, and trigonometry, and the standards to be set in the teaching of these subjects; the collection and arrangement of historical and biographical material to form a background that shall awaken interest in the subject matter; practice in the selection of texts and the laying out of courses; a study of fundamental principles and discussions of methods of presentation and explanation. (Mathematics 11. and 21. or 22.)
Assistant Professor Bowker.

*45. Statistical Methods.**

This course aims to present the fundamentals of statistical analysis with emphasis on the application of mathematical concepts to the methods used by statisticians in the study and interpretation of data. (Mathematics 11. and 21. or 22.)

*Fee, $2.50 per semester.*
Assistant Professor Bowker.

*46. Survey of Mathematics.**

A co-ordinating course for those majoring in mathematics designed to round out and bring into ordered unity the mathematics studied at Middlebury.
Professor Perkins.

* Open to Graduate Students.

*47. Analytical Mechanics.**

A discussion of the statics and dynamics of a particle and of a rigid body. Composition and resolution of forces, vectors, center of gravity, work, energy, impulse, moment of inertia, static and kinetic friction. (Physics 21., Mathematics 21.)
Professor Perkins.

## *Music*

Professor Hathaway
Assistant Professor Fish
Mr. Frantz
Mr. Bedford

Courses required for Comprehensive Examination: 11.2; 21.1, .2; 31.; 42. and at least 3 years in advanced practical courses.

The aim of this department is to cultivate a knowledge of music by offering courses planned along lines of general academic training and to develop students who shall learn to understand and appreciate music in the same degree that they understand and appreciate other arts.

Emphasis is also laid upon the technical side and courses are offered in pianoforte, organ, singing, violin, and violoncello.

While it is not planned to develop professional musicians, students who give evidence of special talent may continue their work with thoroughness during their college course.

*11.1, .2 Elementary Harmony and Ear Training.*

Elementary work in musical notation. General musical definitions. Metre and rhythm. Keys and scales. Major and minor signatures. Sight singing and dictation. Rhythmic pattern. Melody writing and melody construction.
The first steps in the study of musical composition and of the analysis of musical works. The course embraces triads and their progressions, and modulation, also the invention and harmonization of melodies and choral writing in four parts. Keyboard work. (Prerequisite, sufficient piano technic to play simple hymns.)
Mr. Frantz.

*21.1, .2 Advanced Harmony.*

A continuation of Music 11.1, .2. The course includes a study of the chief chromatic chords and their use in modern composition. Suspensions, ornamentation, auxiliary and changing notes, melodic figuration and pedal point. (Music 11.1, .2.)
Assistant Professor Fish.

*22. Pianoforte Music, Its Composers, Characteristics, and Interpretation.*

A course designed for students interested in the study of the pianoforte playing. Its aim is to furnish as a background knowledge of the development of music written for the piano and how it has arrived at its present stage. The piano styles of the different composers are studied, being determined, as they are, by the time in which they lived and the status of the

* Open to Graduate Students.

instruments of the time. Characteristics which differentiate the music of one composer from that of another are emphasized. Two hours lecture and recitation; one hour practical work at the piano.
Professor Hathaway.

*31. Counterpoint.*

Counterpoint in two, three, and four parts in the various species. Original work in the smaller contrapuntal forms. Introduction to double counterpoint, canon and fugue. (Music 21.1 and 21.2.)
Assistant Professor Fish.

*32. Introduction to Music.*

A survey course designed to develop, without going too deeply into technicalities, the ability to listen to good music. It aims to present in untechnical language an account of the evolution of musical forms. Selections are played and illustrated at the piano and by phonograph records. No knowledge of music is necessary for entrance to this course.

The following subjects are included in the course: Polyphonic forms, Absolute and Descriptive Music, Folk Songs and Art Songs. The Orchestra, Popular Music. The music of the different nations. Romanticism in Music. The Modern School. Mid-year examination.
Professor Hathaway.

[*33. Public School Music.*]

The course consists in the preparation for the teaching and supervision of music in the public schools. The work of each grade is outlined and problems discussed. Testing and classifying of voices, and organization and management of choruses, glee clubs and orchestras in high schools are taken up as well as some practice in conducting in the local schools.

*42. Musical History and Advanced Appreciation.**

A general course in the evolution of musical development from earliest times up to the present. Designed for students whose previous work enables them to undertake a more detailed consideration of the music studied. Lectures, required reading, and discussion. Mid-year examination.
Professor Hathaway.

*43. The Elements of Composition.*

A course in musical composition open to students who are interested in and possess the technical knowledge and ability represented by previous courses in the department.

It includes the study of form in music and its construction from the musical motive, phrase, and period to the dance and song forms, also detailed analysis of the chord structures of classic and modern works. Original work required. (Music 31.)
Mr. Frantz.

* Open to Graduate Students.

*44. Special.**

Intensive study of the work of one period or one composer, the subject to be determined by the instructor. Students electing this course should have a working knowledge of harmony and sufficient technique to play the works studied. (Music 32. and 42.)
Professor Hathaway.

*Practical Courses.*

*M-1. Individual Instruction in the Study of the Pianoforte.*
Professor Hathaway.

*M-2. Private Instruction in Organ Playing.*
Assistant Professor Fish and Mr. Frantz.

*M-3. Private Lessons in Voice Placing, Interpretation, and Repertoire.*
Assistant Professor Fish and Mr. Bedford.

*M-4. Instruction in Violin.*
Mrs. Frantz.

*Equipment:* The department collection of phonograph records and scores was augmented in 1937 by a gift from the Carnegie Corporation of about one thousand records, a new electric phonograph, one hundred and fifty scores to accompany all completely recorded works, a library of one hundred volumes, and a cross card file of the records. The collection kept in the Music Studios is available for both class work and student audition at hours set by the head of the department.

*Credits:* Each practical course, if preceded or accompanied by a theoretical course, will receive one point credit each semester if the student's music grades in the preceding year averaged 75 per cent or over. No credit will be given for elementary work in any of the practical courses. It is necessary to have as many theoretical as practical courses if credit for the latter is given.

*Honors in Music:* Honors in Music are given when, in addition to the requirements in theoretical courses, a student has given a public recital of classical and modern works.

*The Orchestra:* The College Symphony Orchestra is made up of students selected through tryouts at the beginning of each year. The Orchestra holds regular full and sectional rehearsals, and gives a number of public concerts during the year. At these concerts representative examples of symphonic literature are performed, including symphonies, overtures, suites, and accompaniments to concertos and choral works.
Mr. Frantz.

*The College Choir:* The College Choir holds two rehearsals weekly and sings at the chapel service each day and at the Sunday vesper service. Opportunity is given to study the works of the best composers of sacred music.
Assistant Professor Fish.

* Open to graduate students.

*The Freshman Choir* holds weekly rehearsals, singing occasionally at chapel services and at special services augmenting the Senior Choir. Try-outs are held early in the first semester.
Mr. Bedford.

*Women's Glee Club:* Drill in ensemble singing, study of the works of excellent composers as well as more popular songs for Glee Club programs. Weekly rehearsals.
Assistant Professor Fish.

*Choral Club:* Open to all students. Preparation for presentation of the standard oratorios in conjunction with the senior and freshman choir.
Mr. Bedford.

*Charges for Practical Courses in Music*

(*Payable in advance. No rebate will be allowed for lessons missed except in cases of continued illness.*)

Students will be accepted at any time; tuition from the beginning of the semester to the time of registration being deducted.

## *Philosophy*

Professor Harrington
Assistant Professor Andrews

*21.1 Introduction to Philosophy.*

A natural approach to the problems of Philosophy through a discussion of the common facts of human experience and man's efforts to understand; then a general course dealing with these problems one after another.

*22.2 Introductory Logic.*

A study of the principles of sound reasoning, with concrete illustrations at every point and practice in the classroom. (Philosophy 21.1 or Education 21.1.)

*32. Studies in Ethics.*

A general survey of the moral life of the race; then an inquiry as to the basis of ethical values and especially their relation to self-realization; and then the principles and ideals of social ethics. (Philosophy 21.1 or permission.)

*41. History of Philosophy.**

A survey of the work of the great thinkers and a tracing of the main currents of philosophical thought from the beginning; then an inquiry into recent and contemporary Philosophy. (Philosophy 32. or permission.)

*42. Constructive Philosophy.**

An effort to outline a world-view in harmony with the most recent science. The inquiry deals not only with the physical universe, but also with society and with the distinctively human values. (Permission.)

Note: Special permission may be given, in individual cases, to students to take advanced courses in Philosophy, even if they have not had the prerequisites specified above, provided they have taken in other departments courses of equal grade and of such a nature as to have furnished the necessary preparation.

## *Physical Education*

Associate Professor Young
Assistant Professor Rosevear

Miss Lecomte

Courses required for Comprehensive Examination: Every course listed in the Department and also Biology 11. and 21., or 31.

Courses recommended: Chemistry 11.; Physics 21.; Drama 21.1 and 32.; Education and Psychology 21.1 and 22.2; Music 11.1 and 32.; Philosophy 21.1; Sociology 21.1.

Since one of the purposes of the required work in physical education is the acquirement of habitual good posture, the Department reserves the right to reassume control of any upper classman who, though she has satisfactorily completed her required work, shows herself in need of physical supervision.

*15. Physical Education.*

Fundamental skills in seasonal sports followed by game participation. Fundamental gymnastics. Hygiene. Required of Freshman women.
Assistant Professor Young, Assistant Professor Rosevear and Miss Lecomte.

*25. Physical Education.*

Natural rhythms and dances; national, character, and folk dancing; clogging and tap dancing. Home Hygiene and Care of the Sick. Required of Sophomore women.
Associate Professor Young, Assistant Professor Rosevear, and College Nurse.

* Open to Graduate Students.

*35.1 Coaching of Sports.*
The theory and practice of coaching team and individual sports: hockey, tennis, archery, volleyball, and basketball. Juniors and Seniors. (Sophomores by permission.)
Associate Professor Young.

*35.2 Playground Supervision and Community Recreation.*
Factors in child development and their relation to adult personality. Play and leisure time activities adapted to age groups and interests. Playground supervision and administration of community recreation. Juniors and Seniors. (Sophomores by permission.)
Associate Professor Young.

*36.2 Community Hygiene and Child Development.*
(1) A general survey of the fundamental principles of sanitary science and disease prevention and their application to water supply, milk, and general food supply, and the spread and control of infectious diseases.
(2) Units including: the child and the family; physical growth; motor development; play; mental growth; emotional growth; language development; social development; observations at the local Nursery School. Sophomores, Juniors, and Seniors.
Assistant Professor Rosevear.

*45. Methods of Teaching Physical Education.*
Theory, practice, and presentation of physical education material. Juniors and Seniors.
Associate Professor Young and Miss Lecomte.

*46. Organization and Administration of Physical Education in High Schools and Colleges.*
Program content and arrangement. Physical and medical examinations. Body mechanics. Extra-curricular activities and supervision. (Physical Education 45.)
Associate Professor Young.

## *Physics*

Associate Professor Wissler

Courses required for Comprehensive Examination: 21.1, .2; 31.1; 32.2; 33.1, .2; 34.1; Astronomy 21.1.

Students majoring in Physics must have Chemistry 11. and Mathematics 21.

*21.1, .2 General Physics.*
An introduction to the fundamental principles of general physics. The first semester's work is prerequisite to the second. (Three years preparatory school mathematics or Mathematics 11.)

[*31.1 Light.**]
An advanced course for students who wish more knowledge of the subject than can be obtained from general physics. The laws of reflection and

* Open to Graduate Students.

of refraction, with their application to optical instruments; the wave theory of light; the spectrum and its teachings; the phenomena of radiation, absorption, dispersion, interference, and diffraction are some of the topics considered. (Physics 21., Mathematics 11.)

*32.2 Electricity and Magnetism.*

An advanced course covering more thoroughly many of the topics studied in the corresponding work in general physics, together with some additional topics, such as the discharge of electricity through gases, electrons, radio-activity, and wireless telegraphy. (Physics 21.)

*33.1 Physical Measurements.*

Elementary theory and practice of physical manipulation. Laboratory work in the measurements of length, mass, time, velocity, linear and angular acceleration; the verification of the laws of equilibrium of forces; the determination of coefficients of elasticity; the density of solids, liquids, and gases; experiments in sound. (Physics 21., Mathematics 11.)

*Laboratory fee, $5.*

*33.2 Physical Measurements.*

Measurements of thermal expansion, specific heat, latent heats of fusion and of evaporation. In electricity, fields of force, electric resistance, electromotive forces, and strengths of current are measured. The laws of reflection and refraction of light waves and the formation of images by mirrors and lenses are studied, and indices of refraction and lengths of light waves are measured. (Physics 33.1.)

*Laboratory fee, $5.*

*34.1 Modern Physics.**

A survey of the recent discoveries in physics and the theories based upon them. The electron, thermionics, photoelectric effect, X-rays, theory of spectra, atomic structure, radioactivity, geophysics, astrophysics, recent ideas in physics are among the topics considered. (Physics 21., Mathematics 21., and permission.)

[*41.1 Advanced Physical Measurements.**]

Special projects to suit the individual student who will gather the required information from the reference library and arrange the necessary apparatus. (Physics 33.2.)

*Laboratory fee, $5.*

* Open to Graduate Students.

## *Political Science*

Professor Cornwall
Mr. Bogart

Courses required for Comprehensive Examination: 11. and three of the following: 21.; 22.; 41.; and 43. Also Economics 20. or 21., and History 32. or 22.

We recommend that the History course be taken sophomore year and Political Science 41. senior year.

*11. The Government of the United States.*

A general introductory course which deals with our national or federal government and our state governments, their basic theories, formation, structure, powers, and operation, and also with the origin, growth, organization, functions, principles, and programs. (No prerequisites.) Seniors and Juniors by permission. Primarily for Sophomores and Freshmen.
Mr. Bogart.

*21. County and Municipal Government and Administration in United States.*

The purpose of this course is to acquaint the student with the problems of county and municipal government and administration in the United States and, with the problems of certain other local governmental units. (Political Science 11. or permission.) Seniors, Juniors, and Sophomores.
Mr. Bogart.

*22. Comparative Government.*

A description and analysis of the government of England and Canada followed by similar treatment of the governments of several European states, giving careful consideration to the theory and practice of parliamentary government as compared with our own system. Special attention being given to contemporary movements and developments. (Political Science 11.) Seniors, Juniors, and Sophomores.
Mr. Bogart.

*31. Business Law.*

A practical course in everyday and legal business relationships. (No prerequisites.) Seniors and Juniors by permission.
Professor Cornwall.

*41. The United States Constitution and Constitutional Law.**

A detailed study will be made in this course of the United States Constitution and its growth and development, with special attention to its interpretation by the Supreme Court. The study will be made chiefly by the case method. (Political Science 11.) Seniors and Juniors by permission.
Professor Cornwall.

* Open to Graduate Students.

[*42. International Government.**]

*43. Political and Legislative Problems of the United States.**

A study of political forces and movements in the United States, and an analysis of legislation and a study of the actual making of laws. (Political Science 11.) Seniors and Juniors.
Professor Cornwall.

*44. European and American Political Theories.**

A seminar course for Seniors and Juniors of high standing, by permission.
Professor Cornwall and Mr. Bogart.

## *Sociology*

Professor Sholes

Courses required for Comprehensive Examination: 21.1, .2; 22.2; 41.1, .2 or their equivalent; 45., History 32.

*21.1 The Principles of Society.*

An introductory course dealing with the behavior of men in groups. Group action. Interrelations. Basic processes. Culture. Personality. Social interaction. Seniors, Juniors, and Sophomores.
*Book and trip fee, $5.*

*21.2 Contemporary Social Problems.*

A continuation of the study of society by means of its problems. Social change. Health. Crime. Race. Wealth. Population. City and rural conditions. Seniors, Juniors, and Sophomores.
*Book and trip fee, $5.*

*Social Psychology.* See Education and Psychology 22.2.
*Book and trip fee, $5.*

[*31.1 Rural Society.*]

A study of the basic society that has grown upon the land and in the small towns. The community. The neighborhood. The family. Institutions. Social and economic problems peculiar to the rural groups. Seniors, Juniors. (Sophomores by permission.)
*Book and trip fee, $5.*

[*31.2 Urban Society.*]

A study of the society that has developed in the urban centers. The neighborhood. The ethnic groups. Politics. Religion. Education. Recreation. Welfare. The changing economic and social conditions peculiar to the urban group. Seniors, Juniors. (Sophomores by permission.)
*Book and trip fee, $5.*

* Open to Graduate Students.

*Social History.* See History 32.
Associate Professor Prentice.

*41.1 The Family.*

A study of the fundamental unit of society. Pattern. History. Change. Problems. Adjustments. Function. (Sociology 21.1 and .2, and permission.) Seniors and Juniors.

*Book and trip fee, $5.*

*41.2 Criminology.*

A study of crime as the response to general culture by certain individuals. The criminal. Criminal personality. Environment. Heredity. Treatment. Prevention.

[*42.1 Social Welfare.*]

A study of the history, concepts, methods, and scope of social welfare work. Primarily for those who will enter the field of social work. Seniors. (Juniors by permission.)

*Book and trip fee, $5.*

*45. Social Efficiency.*

A seminar course primarily for sociology majors, others by permission. Social theory, institutions, movements, progress and achievement. Seniors only.

*Book and trip fee, $10.*

## *Spanish*

Professor Centeno
Assistant Professor Martin

Courses required for Comprehensive Examination: 31.; 40.; 41.; 42.; 43.; 44. (when given).

*11. Elementary Spanish.*

Reading of simple Spanish; oral practice based on the reading text; grammar taught inductively; careful vocabulary building. Spanish is used as the principal means of communication. This course is designed to equip the student with a solid foundation for the more advanced study of spoken and literary Spanish.
Professor Centeno and Assistant Professor Martin.

*21. Second Year Spanish.*

A continuation of oral practice with a review and more extended treatment of grammar. The subject matter of the text consists of realia of the Spanish-speaking countries. Outside reading of Spanish newspapers and magazines. Conducted in Spanish. (Spanish 11. or two years of high school Spanish.)
Assistant Professor Martin.

*31.1 Conversational Spanish.*

A review of grammar, oral practice based on idiomatic texts and selections of the best Spanish authors, and exercises in free composition. The pur-

pose of this course is to give the student a good command of spoken and written Spanish. Conducted in Spanish. (Spanish 21.)
Assistant Professor Martin.

*31.2 Spanish Composition.*
A practical course in the fundamentals of composition; exercises in syntax, construction of sentences, paraphrasing from Spanish texts, study of synonyms, and antonyms, and free composition. (Spanish 31.1.)
Professor Centeno.

*40. Survey of Spanish Literature.*
A general survey course of Spanish literature from the Middle Ages to the end of the Nineteenth Century, including representative novels, plays, and poetry. Lectures and reports by the students on assigned reading. Conducted in Spanish. (Spanish 31.1, .2.)
Professor Centeno.

*41.1 Literature of the Golden Age.*
An intensive study of the great Classical period. Reading of the chief authors and representative works. Lectures, collateral reading, class discussions, written and oral reports. Conducted in Spanish. (Spanish 31.1, .2.)
Professor Centeno.

*41.2 Contemporary Spanish Theatre.*
A survey of the principal Spanish playwrights of today, with a special study of their representative works. Oral discussions and written composition. Conducted in Spanish. (Spanish 31.1.) (Permission.)
Assistant Professor Martin.

*42.1 The Modern Spanish Novel.*
A study of modern Spanish novelists with particular emphasis on the Nineteenth Century, with a special study of their representative works. Oral discussions and written composition. Conducted in Spanish. (Spanish 31.1.) (Permission.)
Professor Centeno.

*42.2 Contemporary Spanish Novel.*
A study of contemporary Spanish novelists with particular emphasis on the relation of literature to the social and intellectual life of present-day Spain. Oral discussions and written composition. Conducted in Spanish. (Spanish 31.1.) (Permission.)
Professor Centeno.

*43. Spanish Civilization.*
The aim of this course is to equip the student with a good understanding of the Spanish character and of Spain's contribution to the world's civilization. A general study of the geographical, ethnical, historical, political, literary, and artistic evolution of Spain, together with a study of its most important traditions and customs, will constitute the subject matter of this course.
Professor Centeno.

[*44. Survey Comprehensive Course.*]
For Seniors majoring in the department.

*45. Special Courses.*
Open to properly qualified students. Recommended for candidates for the Master's Degree and for Seniors seeking honors in Spanish. (Spanish 31.1, .2.) (Permission.)
Professor Centeno and Assistant Professor Martin.

# *Graduate Work*

MIDDLEBURY COLLEGE provides courses in certain departments for students desiring to pursue a Master's degree. Correspondence should be directed to Prof. Harry G. Owen, Chairman of the Committee on Graduate Work.

The degrees of Master of Arts and of Master of Science may be attained by graduate work completed during the regular college year, or at the Summer Sessions, in accordance with the following regulations:

1. The candidate must have a baccalaureate degree from this College, or from another institution whose course of study and requirements for graduation are approved by the Committee on Graduate Work.

2. To obtain the degree of Master of Arts, or Master of Science, one full year in residence and the completion of work equivalent to thirty semester hours will be necessary. This requirement of residence may also be met by attendance at the Summer Sessions. Not more than eight semester hours may be secured at a single Summer Session; and not more than six semester hours in a European Section of the Summer Session.

3. To obtain either of the advanced degrees two-thirds of the required work must be completed at Middlebury College.

4. Graduate work done in other institutions, and presented for transfer credit towards the Middlebury Master's degree, must be acceptable towards the same degree at the institution where the work was done.

5. Candidates should register during the first week of either semester, or during the first week of the Summer Session. A renewal of all existing registrations must be made at the beginning of each college year.

6. The major work of the candidate must be undertaken in some department in which there have been completed undergraduate courses of study of such advanced grade as to satisfy the department of the student's fitness to enter upon graduate work.

7. Candidates for the Master's degree shall present to the Committee on Graduate Work for its approval a statement of the intended course of study, with the written approval of the head of the department in which the major work is to be undertaken.

8. All applications to raise undergraduate courses to graduate level should be presented, with statements covering the additional work involved, to the Graduate Committee before the end of the registration period. No student will be permitted to register in such courses without the written approval of the Chairman of the Graduate Committee to the Head of the Department concerned.

9. Two-thirds of the required work must consist of graduate courses in the department of the major; the remaining one-third may consist of cognate courses of graduate grade prescribed by the department in which the major work is undertaken. A minimum grade of 80 percent shall be maintained in all courses counting towards the degree.

10. Graduates of Middlebury College who have to their credit graduate courses taken in undergraduate years and not counted toward the baccalaureate degree may, subject to the approval of the head of the department concerned, count ten semester hours toward an advanced degree, provided these courses are in subjects related to the department in which the major work for the advanced degree is to be done. Subject to the same requirements, graduates of other recognized colleges may count toward the Middlebury degree ten semester hours of graduate courses completed in undergraduate years and not counted toward the baccalaureate degree.

11. No courses counted in conferring a first degree at Middlebury College, or elsewhere, shall be accepted for a second degree.

12. A Senior who has satisfied all the requirements for the baccalaureate degree at the end of the first semester may continue her study towards the Master's degree during the second semester. Such a student shall be considered a graduate student and her program of study must conform to the regulations governing graduate work.

13. The degree shall be conferred either at the Commencement or at the Summer Session following the completion of the work.

14. The regular tuition fees for undergraduate work are charged. An additional fee of $15 is required for the final examination and the diploma.

## *The Doctorate in Modern Languages*

Besides the Master's degree, the Middlebury Summer Schools of French, Spanish, and German now offer an advanced degree: The Doctorate in Modern Languages (D.M.L.), full details concerning which may be found in the Summer School bulletins of the Schools concerned. The principal requirements are:

1. The Master's degree with a language major from some recognized university.

2. Residence at the Summer Sessions of Middlebury College equivalent to five-year courses of thirty credits. This will ordinarily require four summers' residence at Middlebury, but the basis of the requirement is chiefly the fulfillment of a program, not merely a given total of points. The student will be required to complete the main lines or groups of our curriculum—Stylistics, Phonetics, Realia, Teaching Methods, Literature, and Philology. A minimum of twenty credits over and above the credits necessary for the M.A. must be secured in residence at Middlebury; a maximum of ten credits may be transferred.

3. Two semesters' residence in the foreign country of the major language. This time should be spent in study in approved courses amounting to or equivalent to twelve hours a week (or 24 semester hours) of class exercises. The work must be done according to a plan previously approved by the Dean of the respective School, and the final results must also be approved by him. Work done in a foreign country prior to the student's enrollment as a candidate for the D.M.L. cannot be accepted. Summer

Sessions may not be substituted for the requirement of two semesters' foreign residence.

4. A major language (French, Spanish or German).

a. A thorough knowledge of and the ability to use the spoken and written language, tested by an oral and written examination.

b. A thorough study of and training in phonetics. Candidates will be required to do at least one summer's work in the phonetics laboratory, and to write a report on their research.

c. A scientific study of modern methods of teaching foreign languages. Note: Besides attendance in the courses of methods at Middlebury, candidates will be required to teach at least one year under supervision. Statements will be requested from superintendents of schools, heads of departments, and others as to the success of the candidate's teaching and professional ability. No student will be granted the D.M.L. who cannot be unqualifiedly recommended as an experienced and successful teacher of the language.

5. A final oral examination conducted entirely in the major language, before a board including native members of the faculty; this examination to cover all elements of the candidate's preparation—phonetics, pedagogy, literature, etc. (This training should include a certain amount of philological preparation—Old French or Old Spanish, Phonology, Morphology, etc., but these subjects should be studied not *in se* and *per se,* but always with the idea of the help they may afford to the knowledge and teaching of the modern languages.)

6. A minor language (preferably another Romance Language). This will be tested by an oral and written examination. The candidate's knowledge of the language should be sufficient at least to teach successfully the elementary courses in the language In addition a reading knowledge of German will be required, as a guarantee of the ability to use German texts or editions.

7. A dissertation written in the major language. This dissertation, which should approximate 35,000 words, is intended to prove a thorough and understanding study of some subject, literary, phonetic, or pedagogical, which is worth a careful study. It must embody considerable original work and reflection, must show a mastery of the field, clearness of thought, and must be written in correct and easy style. The subject must be chosen and the preparation continued under the guidance of some member of the Middlebury faculty.

# *Scholarships*

The College has a number of student benefits, many of them given in early years at great self-sacrifice on the part of the donors. The income of these funds is expended exclusively in payment of the tuition, in part, of needy and deserving students of good deportment and application. When the number of students was much smaller, these funds allowed a somewhat more liberal bestowment of beneficiary aid than is now possible. *It is not expected that those whose circumstances admit the full payment of college bills will apply for college assistance.* It is earnestly desired, however, that, where need requires, those who might not otherwise be able to receive a college education will apply for aid from this source. The College has a long record of special encouragement to those who are obliged to secure an education largely through their own efforts. Correspondence concerning scholarships should be directed to the Dean of the Women's College, who will furnish blanks for applications.

Scholarships may be forfeited at any time during the course through negligence or misconduct. If a student fails in any semester to have a passing grade in four courses of which three shall be at least 70 percent grade, any scholarship allowance for that semester is thereby forfeited.

If a student who has had the privilege of a scholarship leaves Middlebury to transfer to another institution, she will be required to pay the full amount of back tuition.

Among the student benefits dispensed by the College is the income from the following funds:

*The Emma Willard Scholarship,* $2,000, established in 1895 by the Emma Willard Association, for the benefit of deserving young women. (*The holder of this scholarship receives a supplementary scholarship bringing the total up to $300, or remission of tuition. For Seniors only.*)

*The Joseph Battell Scholarships,* $500 annually, for young women of Addison County.

*The Charles A. Field Scholarship,* $300, given by the village of Proctor, Vt., "as a memorial of regard for Fletcher Dutton Proctor and of gratitude to him, and for courtesies received at the hands of other residents of said village."

*The John A. Howe Scholarships,* $3,000, bequeathed by John A. Howe, Esq., class of 1853; the income first available for his descendants, and then under certain conditions for students from Poultney.

*The Windham County Congregational Conference Scholarship,* $600.

*The Asa Wheelock Scholarships Fund,* $5,000, established under the will of Charles B. R. Hazeltine of Arlington, Mass., the income first available for students from the town of Wardsboro, Vt., and then from other small country towns in the State.

*The Jonathan Coleman Southmayd Scholarship Fund,* $8,000, established by Hon. Redfield Proctor, in 1922, its income first available for students (men or women) from Proctor.

*The Agnes Warner Sunderland Fund,* $3,000, established by Edwin S. S. Sunderland, Esq., class of 1911, the income from which is first available for the assistance of students (men or women) from Cornwall.

*The Charles B. R. Hazeltine Fund,* $14,043, established in 1923 "for assisting worthy students."

*The John W. Rowell Fund,* $2,000, established by the late Chief Justice Rowell.

*The President's Purse,* $10,000, established by Mr. Charles M. Swift, the income to be disbursed at the discretion of the President.

*The Dutton Fellowships,* established in 1926 by Hon. Redfield Proctor for five years, were continued in 1932 with revisions made by the original donor. The Fellowship now provides $1,200 to $1,500, according to the conditions of the time and the estimated requirements. In any given year it may be awarded to a man or woman as the Scholarship Committee may consider best, but over a period of years a majority of the recipients will be men. The Fellowship shall be used to defray, so far as possible, the expenses for one year of post-graduate study in some institution in Europe approved by the committee. The recipient shall have a definite program and be regularly enrolled in classes for at least a majority of their time in Europe.

The basis for award is similar to that of the Rhodes Scholarships, high standing being considered in connection with college leadership and interest in out-door sports and life. It is understood that this year of graduate work shall not be toward a professional career, such as Law, Medicine or Theology, nor continued at Middlebury. The judges consist of one member of the trustees chosen by the trustees, one member of the faculty chosen by the faculty, and the President of the College.

*The William W. Gay Fund,* $5,000, established in 1929 by the gift of Mrs. Frederic F. Van de Water, Jr., in memory of her father, William W. Gay, class of 1876.

*The Herbert K. Twitchell Fund,* $2,000, established in 1929 by a bequest received under the will of Mr. Twitchell for students from Vermont, preferably Addison County.

*The Cornelia W. Bailey Fund,* $33,500, established in 1929 under her will for students of the Protestant faith, residing in Vermont.

*Music Scholarship,* offered by the "A Tempo" Club for one year's study in a practical course in music.

### *George W. Ellis Fellowships*

Two fellowships, each with an annual value of $1,600, were established at Columbia University in 1931, under a provision in the will of George W. Ellis, to be open primarily to residents of Vermont or to the graduates of Middlebury, Norwich, and the University of Vermont.

The fellowships are awarded to qualified men or women for pursuing advanced or graduate study in any of the faculties or schools at Columbia. Information on this fellowship may be secured from Prof. H. G. Owen.

### *State Scholarships*

The College receives from the State of Vermont an annual appropriation of $7,200 for the payment to the amount of $120 annually of the tuition and incidental college charges of sixty students, two being appointed each year by each Senator in the General Assembly, from his respective county, provided any suitable candidate should apply therefor; otherwise from any county in the State.

Any Vermont student desiring to take advantage of a State scholarship should apply to one of the Senators of the county in which she resides, and the Senator may thereupon give her a certificate of appointment. Should the Senators in the applicant's county already have made appointments, the student should immediately apply to the Dean, as there may be a vacancy from some other county of which the applicant may avail herself. Incoming Freshmen should make such application to the Director of Admissions.

The same regulations as to forfeiture through misconduct, poor scholarship, or unsatisfactory attendance apply to State scholarships as to student benefits owned by the College.

## *Memorial Loan Funds*

*Martha Jewett Nash Student Loan Fund,* $3,000, received in 1923 from a friend, "the principal to be safely invested, the income and accretions to be loaned, under certain conditions, to women students of the College."

# *Prizes*

*The Deacon Boardman Peace Prize.* Established in memory of Samuel Ward Boardman (1789-1870). An annual prize of $20 to the member of the junior class submitting the best essay in favor of peace, and in opposition to war as a method for settling international differences. The essay must be creditable as a literary composition and consist of at least 2,000 words.

*The Kellogg Latin-English Prize.* Established by gift of Prof. Brainerd Kellogg, LL.D., Litt.D., of the class of 1858, Trustee, "to encourage Latin and English." Twenty dollars are awarded annually to the two best examination papers on Horace.

*The Mortar Board Cup.* Presented annually to that sophomore woman who in the opinion of the Chapter has shown the greatest interest in College by participation in extra-curricular activities and by attainment of high scholarship.

*The Woolsey Prize,* established by the late Col. Theodore S. Woolsey, Jr., B.A., M.F., 1933. Two twenty-five dollar prizes will be awarded to the two undergraduates writing the best examination in Bible.

*The Optima Prize.* In memory of Henry Hobart Vail, for many years a trustee of the College, and in appreciation of the benefits derived by their daughter, Catherine, during her years at Middlebury, Mr. and Mrs. Roger S. Baldwin have established a permanent foundation of $6,000, the income from which will provide a $220 award to be known as the Optima Prize and given yearly to the Junior in the Women's College who, in the judgment of her class, is most typical of Middlebury. Selection for the award will be based on scholarship, character, and personality, and the junior women will have the deciding vote as to which one of their classmates is worthy of the prize. The award is made each spring and became operative with the class of 1929, of which Catherine Baldwin, now Mrs. Roger Keeny, of Grand Rapids, Michigan, was for two years a member. An additional fund of $1,000 was also given for the purpose of supplying sufficient income to cover the cost yearly of a Gold Pin to be given the winner of the Optima Prize.

*The Mary Dunning Thwing Prize.* Established by President Charles F. Thwing of Western Reserve University in memory of his wife, Mary Dunning Thwing. The fund of $1,500 provides an income to be used as a prize to the student in the Women's College, who in the last two years of her course, has done the best work in written English, prose or poetry.

# Needs of the College

Long range plans for a complete new women's college plant to cost approximately three and a half million dollars were adopted by the Trustees in June, 1935. The first unit, completed in 1936, will be ready for occupancy at the opening of the college year in 1936. Three other dormitories of similar design, three recitation halls, a gymnasium, library, chapel, Dean's residence, art and music buildings are included in the long range plan. The most needed units after the dormitory is completed are a recitation hall, to cost $150,000, and a gymnasium, $260,000.

# Forms of Bequest

The corporate title of Middlebury College is "The President and Fellows of Middlebury College."

The following forms are suggested:

I give and bequeath to "The President and Fellows of Middlebury College," a corporation of the State of Vermont, the sum of..... dollars, to be used by the Trustees of said College for such purposes and in such manner as they shall deem appropriate.

I give and bequeath to "The President and Fellows of Middlebury College," a corporation of the State of Vermont, the sum of..... dollars, to be invested by the Trustees of said College, and the income thereof to be applied to the uses of said College in accordance with the terms of its charter.

# *Alumnae Association*

THE Associated Alumni was established in 1824 and has had a continuous existence since that year. Until the Alumnae Association was formed in 1912 both men and women were members of the older Association. In addition to the social purposes, these organizations aim to encourage active interest in the life of the College and to give material assistance in the forwarding of plans and projects of the Administration. Alumni and alumnae hold district meetings together in some cities, separately in other localities.

The business of the Associated Alumni is conducted through Edgar J. Wiley, Secretary, from whom biographical information and addresses may be obtained. Miss Muriel Kathryn Jones is the resident secretary for the Alumnae Association. The official publication of the two organizations is the *News Letter,* published quarterly. Annual meetings are held during Commencement Week at the College.

The national officers of the Alumnae Association for 1936-37 are:
